Chairman's Statement

The Board of Directors considers corporate governance matters and adherence to codes of best practice to be of the utmost importance. As Chairman of the Board, I believe that it has operated effectively throughout the financial year and that its role and its composition are well defined, appropriate and support the long-term development of the Company.

Overview of the Company

iShares VII public limited company (the "Company") is organised as an open-ended Investment Company with variable capital (an "Investment Company"). The Company was incorporated in Ireland on 9 April 2009 with limited liability and segregated liability between its Funds and is organised under the laws of Ireland as a Public Limited Company ("PLC") pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and is regulated by the Central Bank of Ireland (the "CBI").

The Company is structured as an umbrella Fund and comprises separate Funds ("Funds") of the Company.

The term "Fund" shall be deemed to mean either a Fund of the Company, or if the context so requires, BlackRock Asset Management Ireland Limited (the "Manager") or its delegate acting for the account of the relevant Fund. The term "BlackRock" is used to represent BlackRock Advisors (UK) Limited. The investment objectives and policies of each Fund are set out in the prospectus.

The Funds of the Company pursue strategies of either tracking or replicating the performance of a benchmark index in order to deliver the objectives of each Fund.

The Manager has delegated the administration of the Company and its Funds to State Street Fund Services (Ireland) Limited (the "Administrator") including the calculation of the daily net asset value ("NAV"), and the preparation of the financial statements of the Company subject to the overall supervision of the Directors and the Manager. State Street Fund Services (Ireland) Limited (the "Registrar") has also been appointed as the registrar of the Company. The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depository") as Depository of the assets with responsibility for the safe keeping of such assets, pursuant to the UCITS Regulations. As part of its fiduciary responsibility to the Company, the Depository provides a certain level of ongoing oversight of the Company, as well as reporting on the conduct of the Company in each annual accounting period as set out in the Statement of the Depository's Responsibilities.

In accordance with Guidance Note 4/07 on the Organisation of Management Companies issued by the CBI, the Board of the Manager has identified BlackRock Group personnel who monitor and control the management functions as outlined therein. These BlackRock Group personnel report to the Board of the Manager and the Company on a regular basis. The management functions delegated by the Manager are subject to appropriate reporting and ratification procedures, which are designed to ensure that the appropriate reports are received in a timely fashion such that the Manager and the Board can discharge their duties, as part of the governance framework put in place by the Manager and the Company. The Board reviews risk reporting on a regular basis together with an annual review of internal controls and risk management from the Manager.

The Board

The Board comprises six Directors, two of whom are independent. The members of the Board were chosen for their range of skills and experience. Paul McGowan has extensive experience in the area of tax, financial services and corporate governance, Teresa O'Flynn has over eighteen years' experience in tax, corporate finance, project finance and the renewable energy infrastructure sector. Barry O'Dwyer has extensive knowledge and experience in corporate governance and I have over twenty-five years' experience in the banking and finance, fund management and securities processing industries.

David Moroney has been appointed as a non-executive Director effective 15 November 2017. David has over twenty years of experience in securities, derivatives and regulated funds and has had responsibilities in trading, structuring, custom indices, risk and governance.

Jessica Irschick has been appointed as a non-executive Director effective 20 November 2017. Jessica has extensive experience in fixed income and equity trading, financing, securities lending and foreign exchange.

Chairman's Statement (continued)

Matters relating to the Company during the financial year

There were 30 Funds in operation at 31 July 2018.

It is the opinion of the Board that all Funds have performed in line with their objectives and that any tracking differences have been explained in the Investment Manager's report. Additional information on the Funds' performance can be found in the Investment Manager's report.

Paul McNaughton
Chairman

28 November 2018

Background

iShares VII public limited company (the “Company”) is organised as an open-ended Investment Company with variable capital. The Company was incorporated in Ireland on 9 April 2009 with limited liability and segregated liability between its Funds and is organised under the laws of Ireland as a Public Limited Company (“PLC”) pursuant to the Companies Act 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and is regulated by the CBI.

The term “Fund” shall be deemed to mean either a fund of the Company, or if the context so requires, the Manager or its delegate acting for the account of the relevant Fund. The term “BlackRock” is used to represent BlackRock Advisors (UK) Limited. The investment objectives and policies of each Fund are set out in the prospectus.

The Company is structured as an umbrella Fund and comprises separate Funds of the Company. Each Fund of the Company comprises a distinct portfolio of investments. The shares of each Fund may be issued with different rights, features and on different terms and conditions to those of other Funds. Shares of a Fund may be divided into different share classes with different dividend policies, currency hedging and valuation currencies and may therefore have different fees and expenses.

While assets and liabilities that are specific to a share class within a Fund would be attributable to (and should be borne by) only that share class, there is no segregation of liabilities between share classes as a matter of Irish law. Due to the lack of segregation of liabilities as a matter of law, there is a risk that the creditors of a share class may bring a claim against the assets of the Fund notionally allocated to other share classes. The financial instruments and risks section of the financial statements provides more details on the management of foreign currency risk in relation to the currency hedged share classes.

The Investment Manager may use derivatives (for example, forward currency contracts, futures contracts and options, or such other instruments as are permitted) to hedge the rate of exchange between the currency of all or some of the currencies in which the assets of a Fund (including cash and income) are denominated and the share class valuation currencies.

The transactions, costs and related liabilities and benefits arising from instruments entered into for the purposes of hedging the currency exposure for the benefit of any particular currency hedged share classes shall be attributed only to the relevant currency hedged share classes. Currency exposures of different share classes may not be combined or offset and currency exposures of the assets of a Fund may not be allocated to separate share classes.

Changes to the Company

On 4 September 2017, iShares FTSE Italia Mid-Small Cap UCITS ETF was launched.

Effective 15 September 2017, the Company Secretary changed its name from Chartered Corporate Services to Sanne Corporate Administration Services Ireland Limited.

Effective 1 October 2017, Commerzbank AG was replaced by State Street Bank International GmbH as German information agent for the Company.

BlackRock Asset Management North Asia Limited has been appointed as sub-investment manager effective from 5 October 2017.

David Moroney has been appointed as a non-executive Director effective 15 November 2017.

Jessica Irschick has been appointed as a non-executive Director effective 20 November 2017.

BlackRock Asset Management Deutschland AG was appointed as a sub-investment manager effective 4 December 2017.

Background (continued)

Changes to the Company (continued)

On 18 December 2017, an updated prospectus was issued by the Company to incorporate the following changes:

- The launch of iShares FTSE Italia Mid-Small Cap UCITS ETF.
- The anticipated tracking error of iShares MSCI Korea UCITS ETF USD (Acc) was updated from 0.70% to 0.30%.
- The anticipated tracking error of iShares MSCI UK Small Cap UCITS ETF was updated from 0.25% to 0.20%.

On 31 May 2018, an updated prospectus was issued by the Company to incorporate the following changes:

- The Total Expense Ratio ("TER") of iShares MSCI EMU UCITS ETF EUR (Acc) and EUR (Dist) classes was updated from 0.33% to 0.12%.
- The anticipated tracking error of iShares Nikkei 225 UCITS ETF was updated from 0.80% to 0.20%.

New share classes were launched on the following Funds during the financial year as detailed in the below table:

Fund	Share Class	Launch Date
iShares MSCI EMU UCITS ETF	GBP Hedged (Dist)	4 June 2018
iShares Core S&P 500 UCITS ETF	GBP Hedged (Dist)	3 July 2018
iShares \$ Treasury Bond 3-7yr UCITS ETF	USD (Dist)	12 July 2018

Potential implication of Brexit

In a referendum held on 23 June 2016, the electorate of the United Kingdom ("UK") resolved to leave the European Union ("EU"). The result has led to political and economic instability and volatility in the financial markets of the UK and more broadly across Europe.

It may also lead to weakening in consumer, corporate and financial confidence in such markets as the UK finalises the terms of its exit from the EU. The extent of the impact will depend in part on the nature of the arrangements that are put in place between the UK and the EU following the eventual Brexit deal and the extent to which the UK continues to apply laws that are based on EU legislation. The longer term process to implement the political, economic and legal framework that is agreed between the UK and the EU is likely to lead to continuing uncertainty and periods of exacerbated volatility in both the UK and in wider European markets.

The UK's exit from the EU, the anticipation of the exit, or the terms of the exit could also create significant uncertainty in the UK (and potentially global) financial markets, which may materially and adversely affect the performance of the Funds, the Funds' NAV, the Funds' earning and returns to Shareholders. It could also potentially make it more difficult to raise capital in the EU and/or increase the regulatory compliance burden which could restrict the Funds' future activities and thereby negatively affect returns. Currency volatility resulting from this uncertainty may mean that the returns of the Fund and its investments are adversely affected by market movements, potential decline in the value of the British Pound and/or Euro, and any downgrading of UK sovereign credit rating. This may also make it more difficult, or more expensive, for the Company to execute prudent currency hedging policies.

This mid to long term uncertainty may have an adverse effect on the economy generally and on the ability of the Company and its investments to execute their respective strategies and to receive attractive returns, and may also result in increased costs to the Company.

Background (continued)

Fund details

There were 30 Funds in operation at 31 July 2018. The investment objective of the Funds is to provide investors with a total return, taking into account the capital and income returns, which reflect the total returns of the respective benchmark listed in the table below:

Fund	Benchmark Index	Investment Management Approach*
iShares \$ Treasury Bond 1-3yr UCITS ETF USD (Acc) B	ICE U.S. Treasury 1-3 Year Bond Index	Non-replicating
iShares \$ Treasury Bond 3-7yr UCITS ETF	ICE U.S. Treasury 3-7 Year Bond Index	Non-replicating

iShares FTSE Italia Mid-Small Cap UCITS ETF	FTSE Italia PIR Mid Small Cap Index	Replicating

* Please refer to the Investment Manager's report for further information on the meaning of replicating and non-replicating Funds.

^ Currency hedged Fund.

All figures relating to each Fund/Share Class are shown in the relevant functional currency. The financial statements of the Company are presented in Euro. These Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other share listed on a stock exchange, but provide instant exposure to many companies or various financial instruments relevant to the Fund and its benchmark index.

Stock exchange listings

The Company maintained a listing on the London Stock Exchange ("LSE").

Investment Manager's report

INVESTMENT OBJECTIVE

The investment objective of the Funds is to provide investors with a total return, taking into account the capital and income returns, which reflect the total returns of the respective benchmark listed in Fund details in the Background section.

FUND PERFORMANCE, TRACKING DIFFERENCE AND TRACKING ERROR

The Fund performance figures are the aggregated net monthly returns based on the NAV calculated in accordance with the prospectus for the financial year under review. Due to Financial Reporting Standard ("FRS") 102 requirements which apply to the financial statements, there may be differences between the NAV per share as recorded in the financial statements and the NAV per share calculated in accordance with the prospectus. The returns are net of the TER.

Tracking difference is defined as the difference in returns between a Fund and its benchmark index. Tracking difference is based on the NAV calculated in accordance with the prospectus.

Realised tracking error is the annualised standard deviation of the difference in monthly returns between a Fund and its benchmark index. Tracking error shows the consistency of the returns relative to the benchmark index over a defined period of time. Tracking error is based on the NAV calculated in accordance with the prospectus.

Anticipated tracking error is based on the expected volatility of differences between the returns of a Fund and the returns of its benchmark index.

For physically replicating Funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights represented in the benchmark index.

For non-replicating Funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The objective is to generate a return which is as close as practicable to the total return of the index net of transaction costs, gross of fees and other costs.

Cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging can have an impact on tracking difference and tracking error. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

Each Fund's TER is accrued on a daily basis throughout the financial year, which can impact the measurement of a tracking error in a positive or negative manner depending on the performance in the market and the TER rate applied. The extent and magnitude of this effect on performance measurement is subject to the timing of the market performance relative to the performance period and can be greater than the headline TER in a positive market and lower than the TER in a negative market.

In addition to the above, the Funds may also have a tracking difference and tracking error due to withholding tax suffered by the Funds on any income received from its investments. The level and quantum of tracking difference arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Funds with various tax authorities, any benefits obtained by the Funds under a tax treaty or any securities lending activities carried out by the Funds.

Investment Manager's report (continued)

FUND PERFORMANCE, TRACKING DIFFERENCE AND TRACKING ERROR (continued)

The following table below compares the realised performance of the Funds against the performance of the relevant benchmark index during the financial year ended 31 July 2018, the anticipated tracking error of the Funds (disclosed in the prospectus on an ex-ante basis) against the actual realised tracking error of the Funds as at 31 July 2018 and an explanation of the tracking difference gross of TER. An explanation of the difference in tracking error is also provided where the realised tracking error is greater than the anticipated tracking error. The realised tracking error is annualised and calculated using data from the preceding 36 month observation period. Where a Fund has not been trading for 36 months, the annualised tracking error since inception has been presented.

Fund	Fund return for the financial year ended 31/07/2018 %	Benchmark return for the financial year ended 31/07/2018 %	Tracking difference net of TER %	TER %	Tracking difference gross of TER %	Tracking difference explanation	Anticipated tracking error %	Realised tracking error %	Tracking error explanation

MARKET REVIEW

Equities

US equities

This market review summary covers iShares Core S&P 500 UCITS ETF, iShares Dow Jones Industrial Average UCITS ETF, iShares MSCI USA Small Cap UCITS ETF, iShares MSCI USA UCITS ETF and iShares NASDAQ 100 UCITS ETF.

US equities delivered strong returns over the Company's review year, significantly outperforming relative to global equities. The bulk of the gains arose over the first half of the review year as a combination of confidence in the economic outlook, both for the US and globally, and encouraging corporate earnings updates boosted valuations. However, even as positive corporate news flow remained very positive, concerns that US interest rates could rise more steeply than investors had expected and rising global trade tensions subsequently acted as a slight headwind to US equities.

Despite positive signs from the economy, the US market began the review year on a mixed note as investors assessed the implications of the devastation caused by Hurricanes Harvey and Irma. Some element of political uncertainty also weighed on sentiment as President Donald Trump's handling of violent confrontations in Charlottesville drew criticism from business leaders, resulting in deteriorating relations between the administration and some executives, and the subsequent disbanding of White House business councils. Nevertheless, US equities soon pushed higher, buoyed by a stream of encouraging corporate earnings and economic headlines. Compared to growth of 1.20% on an annualised basis during the first quarter of 2017, revised data suggested that the US economy had grown by 3.10% during the April to June 2017 period, while the robust jobs market continued to support consumer activity. US equities set a succession of all-time highs during the final quarter of 2017, bolstered by signs that economic growth was strengthening further, a robust rally in the energy sector following Organisation of the Petroleum Exporting Countries ("OPEC") production agreement with Russia and a political accord that would cut the main US corporate tax rate from 35.00% to 21.00%.

Having soared by over 10.00% between mid November 2017 and late January 2018, US equities fell sharply from their new all-time high of 26th January as stronger than expected US inflation and pay data heightened concerns that interest rates could rise more steeply, and to a greater extent, than investors had expected. Despite a marked upturn in volatility, valuations nevertheless stabilised over the remainder of the first quarter of 2018. Notwithstanding a short lived decline in the Information Technology ("IT") sector as a data security scandal hit Facebook and a fatal accident raised new questions over the safety of autonomous vehicles, official economic data suggested that the US trading environment remained highly supportive. Compared to revised data showing that the US economy had grown by 2.90% during the final quarter of 2017, provisional figures suggested that growth remained firm at 2.20% during the first quarter of 2018. Meanwhile, the jobs market demonstrated further strength as the unemployment rate fell to 3.90% in April 2018, compared to 4.40% in August 2017. Notwithstanding concerns over the growing risk of a full blown global trade war as President Trump imposed tariffs on steel and aluminium imports, also threatening further measures should China retaliate, while irking European allies by raising the prospect of tariffs on goods such as cars, US equities ended the Company's review year on a firm note. This reflected another positive quarterly corporate reporting season, with optimism that negotiations could yet defuse trade tensions and news that the US economy had grown by 4.10% during the second quarter of 2018, its strongest growth in nearly four years.

Although concerns over the growing risk of global trade war weighed on sentiment towards export orientated large cap stocks, smaller companies outperformed, reflecting their greater relative reliance on the robust domestic US economy. The technology heavy NASDAQ index performed particularly strongly, underpinned by robust trading updates from sector heavyweights such as Amazon, Microsoft and Alphabet. The Dow Jones Industrial Average also rose ahead of the broader US market, boosted by the large representation of cyclical industrial stocks, particularly during their strong performance over first half of the review year, and low exposure to underperforming utilities.

Japanese equities

This market review summary covers iShares MSCI Japan UCITS ETF USD (Acc) and iShares Nikkei 225 UCITS ETF.

Having generated strong returns during the first half of the Company's review year, Japanese equities subsequently struggled in the face of the cooling domestic economy and concerns over the risk of a global trade war. Over the review year as a whole, Nikkei 225 equities outperformed their global peers, although the MSCI Japan index underperformed, reflecting a marked recovery in the US Dollar versus the Japanese Yen from mid February 2018 that more than offset the US currency's previous decline since the beginning of the Company's review year. The US Dollar's recovery against the Japanese Yen during the second quarter of 2018 eased some of the pressure on Japanese exporters that had been feeling the effects of currency induced weakness in the earnings from the key US market.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Equities (continued)

Japanese equities (continued)

Japanese equities enjoyed solid price gains early in the review year, boosted by very positive company trading updates and supportive domestic economic data, notably rising business confidence. Following setbacks in late August and early September 2017 as North Korea defied the international community by threatening its neighbours and test firing a missile over Japan, the Japanese market soon recovered its poise, lifted by further positive economic and corporate news flow. Notwithstanding the impact on international revenues from the Japanese Yen's strength against the US Dollar, trading updates from leading industrial and IT companies, including makers of precision instruments and electric machinery, were particularly encouraging. Politics also lent support to the rally as Prime Minister ("PM") Shinzo Abe unexpectedly called – and won – a 22 October 2017 snap election, with his Liberal Democratic Party thereby gaining a fresh mandate for market friendly 'Abenomics'. Despite some signs that the Japanese economy had been gradually cooling, with provisional third quarter data suggesting growth of 0.60%, compared to 0.70% three months previously, a year end surge in wider global equities, spurred by rising oil prices and US tax cuts, saw Japanese equities end 2017 on a firm note.

With strength in global stock markets and a robust Tankan business confidence survey helping Japanese stocks to hit 26 year highs in late January 2018, Japanese equities subsequently plunged alongside their global peers into early February 2018 amid fears over the outlook for US interest rates. Although the Japanese market soon stabilised, Japanese equities would nevertheless perform poorly relative to their global counterparts over the remainder of the Company's review year. While allegations of political impropriety, linking PM Abe's wife to an organisation that had seemingly benefitted from favourable terms over a land deal, caught the domestic headlines, investors also fretted over the prospect that Japanese policymakers could soon follow the lead of their Eurozone counterparts by scaling down the quantitative easing ("QE") support programme. Subsequently, despite the ongoing strength of the labour market as the jobless rate fell to a 25 year low of 2.20%, concerns that waning consumer activity was acting as a drag on the domestic economy were soon vindicated by news that the economy contracted by (0.20)% during the first quarter of 2018. Meanwhile, despite a recovery in the US Dollar easing some pressure on exporters' revenues, the effect was largely offset by deepening worries over the risk of a global trade war after President Trump acted on his earlier threat to impose steep tariffs on some imports.

European equities

This market review summary covers iShares Core EURO STOXX 50 UCITS ETF, iShares FTSE MIB UCITS ETF EUR (Acc), iShares MSCI EMU CHF Hedged UCITS ETF, iShares MSCI EMU Small Cap UCITS ETF, iShares MSCI EMU UCITS ETF, iShares MSCI EMU USD Hedged UCITS ETF (Acc) and iShares FTSE Italia Mid-Small Cap UCITS ETF.

European equities produced only muted gains over the Company's review year, underperforming by a substantial margin compared to their global counterparts. Despite the region's positive economic backdrop, concerns over political developments in Europe, the effects of the Euro's strength against the US Dollar on exporters' earnings for much of the review year and rising global trade tensions weighed on sentiment towards European equities.

European bourses began the year on a relatively flat note. Notwithstanding evidence that the domestic economic environment remained supportive, with the Eurozone economy having grown by 0.60% during the second quarter of 2017, speculation that the European Central Bank ("ECB") could pare back its QE economic support plan acted as a slight headwind. The prospect of tighter monetary policy in Europe underpinned the Euro versus the US Dollar, thereby acting to dilute Eurozone based companies' earnings from the US market. Although improving sentiment towards global equities in late 2017 helped European markets to gain ground, domestic political uncertainties acted as a slight drag. Following Angela Merkel's hollow victory at September's elections, her Christian Democratic Union ("CDU") party struggled to form a coalition government following an upturn in support for the anti immigration Alternative for Germany party. Meanwhile, the Spanish Central Bank noted that political uncertainty related to Catalonia's independence movement was impairing the country's economic recovery. Nevertheless, economic activity across the single currency zone as a whole remained solid, with second quarter growth revised up to 0.70%, while third quarter growth was estimated at 0.60%. With investors further reassured by the ECB's cautious approach to paring back QE, trimming monthly purchases from €60 billion to €30 billion from January 2018, European equities followed their global counterparts higher amid higher oil prices and the breakthrough over US tax cuts.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Equities (continued)

European equities (continued)

Having peaked in late January 2018, European equities followed their global counterparts sharply lower into early February 2018, with the prospect of faster than expected US interest rate rises likely to hasten the eventual winding down of the Eurozone QE. Meanwhile, although Angela Merkel's CDU party finally reached an agreement over forming a coalition with the Christian Social Union party, political concerns mounted after the anti EU Five Star and Lega parties performed strongly at March's Italian elections. Following protracted negotiations, the two parties eventually formed a government led by law professor and political novice Giuseppe Conte. However, with the anti establishment parties' tax and spending plans seemingly setting Italy on a collision course with EU budget rules, volatility in the Italian stock and bond markets rippled out across wider European and global markets for much of May and June 2018. Although a recovery in the US Dollar, helped by 'safe haven' buying and the prospect of faster than expected US interest rate rises, lent some support to export orientated Eurozone based companies, concerns over the growing risk of a global trade war capped the market's gains. Meanwhile, with Brexit related uncertainties further clouding the region's political and economic outlook, revised data released in June 2018 showed that Eurozone economic growth slowed to a disappointing 0.40% during the first quarter of 2018. Nevertheless, the ECB announced a further tapering of QE, with the programme to finally end in September 2018. On the final day of the review year, provisional figures suggested that growth had slowed further, with the eurozone economy growing by just 0.30% during the April to June 2018 period, its weakest growth since the second quarter of 2016.

European small caps broadly outperformed their larger counterparts, reflecting high levels of confidence over the prospects for the domestic economy, with smaller companies also less exposed to currency induced international earnings erosion during the US Dollar's slide early in the review year. US Dollar hedged exposure to European equities outperformed Euro and Swiss Franc based exposure over the 12 months as a whole. Italian equities performed broadly in line with wider European markets over the review year, as early outperformance amid optimism over the more positive economic backdrop was subsequently offset by poor post March relative returns as political concerns mounted. Since the launch of iShares FTSE Italia Mid-Small Cap UCITS ETF domestically focused Italian smaller companies underperformed their larger counterparts on concerns that political uncertainty would weigh on economic activity. EURO STOXX 50 equities, representing Europe's largest listed companies, underperformed broader based European equity indices, largely resulting from poor relative returns from larger caps amid concerns over the effect of the strong Euro during the first half of the review year.

UK equities

This market review summary covers iShares FTSE 100 UCITS ETF, iShares MSCI UK Small Cap UCITS ETF and iShares MSCI UK UCITS ETF.

Having lagged behind global equities during the first half of the review year amid a slowdown in the domestic economy, UK equities subsequently generated improved returns, boosted by growing optimism that business activity was gradually picking up. Nevertheless, weighed to some extent by political uncertainties amid a lack of clarity over the UK's future trading relationship with the EU, UK equities generally underperformed compared to their wider global counterparts. Smaller UK companies outperformed their larger peers, partly reflecting their greater reliance on the recovering UK economy, with their focus on the domestic market implying reduced exposure to Brexit related uncertainties. However, the UK's largest capitalised companies, as represented by the FTSE 100 index, marginally outperformed the wider UK market, reflecting the substantial representation of their earnings that the UK's biggest companies derive from international operations.

UK equities began the review year on a mixed note amid signs that the economy's post June 2016 EU referendum resilience was gradually dwindling, weighed to some degree by the lack of political clarity over the UK's future relationship with the EU following the country's scheduled departure at the end of March 2019. In addition to 'hard' data demonstrating the economic slowdown, with the economy growing by 0.20% and 0.30% during the first and second quarters of 2017 respectively, compared to 0.70% during the final quarter of 2016, trading updates from companies such as advertising giant WPP and electricals retailer Dixons Carphone suggested that clients were adopting a more cautious spending approach. Despite ongoing strength in the jobs market, rising inflation and muted pay rises added to the strain on consumer finances, with inflation hitting 3.10% in November 2017, while pay growth held close to 2.50%. Against this backdrop, seeking to bring inflation back to the official 2.00% target, the Bank of England ("BoE") raised interest rates by 0.25% to 0.50% the same month, effectively reversing the 'emergency' cut imposed in the aftermath of the EU referendum. Nevertheless, despite the decidedly mixed domestic economic picture, strength in global equities as the world economic outlook improved helped to lift the UK market, partly reflecting the global earnings footprint of many of the UK's largest companies.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Equities (continued)

UK equities (continued)

UK equities largely tracked the gyrations in global equities around the turn of the calendar year, peaking in late January 2018 as the UK's relatively large energy sector benefitted from soaring oil prices, then following other markets lower amid concerns over the likely pace of future US interest rate rises. However, disappointing domestic economic data weighed on UK equities returns over much of the first quarter amid ongoing signs that political uncertainties surrounding Brexit were continuing to act as a dampener on consumer and business spending. Data would subsequently show that the UK economy grew by just 0.20% during the first quarter of 2018. Although extreme weather would act as a further drag on activity early in the second quarter, the strength of the jobs market and improving survey data from the dominant services sector triggered speculation that the BoE could soon raise interest rates. Nevertheless, UK equities performed well relative to their global peers over the final months of the review year amid signs that previous pessimism over UK listed companies' earnings outlook may have been overdone.

Notwithstanding a mixed response to PM Theresa May's proposals to break the Brexit negotiations deadlock, and only a limited pickup in business activity, the BoE duly lifted interest rates to 0.75% in early August 2018.

Canadian equities

This market review summary covers iShares MSCI Canada UCITS ETF.

Canadian equities produced modest returns, underperforming their global counterparts, largely due to modest relative returns during the first half of the review year. This partly reflected uncertainty over the future of the North America Free Trade Agreement ("NAFTA"), while the relatively low representation of outperforming IT stocks in the Canadian market index also acted as a drag on returns.

The Canadian market began the review year on a steady footing, buoyed by a combination of healthy corporate news flow and optimism that the ongoing global economic recovery would continue to support demand for Canadian goods & services. Investors also drew encouragement from the strength of the domestic economy; compared to 0.90% during the first quarter of 2017, the economy grew by 1.10% during the second quarter, according to data released in August 2017. Although this figure would subsequently be revised down to 1.00% and growth in the third quarter of 2017 would slip to just 0.40% as exports fell, firmer global oil prices in late 2017 lent some support to Canadian equities given the country's relatively large energy sector. The oil & gas sector represents around 21.40% of the MSCI Canada index, compared to approximately 6.30% for the MSCI World index). However, low relative exposure to the IT sector, approximately 4.20% in the Canadian index, compared to around 19.00% in the global index) meant that strong returns from global IT companies in late 2017 were not fully reflected in the Canadian market.

After rising broadly in line with global equities around the turn of the calendar year before subsequently tracking their international peers sharply lower into early February, Canadian equities performed poorly in early 2018. Although the strong employment market had helped to support personal consumption, concerns mounted that progressively higher interest rates could weigh on consumer activity. Having raised interest rates by 0.25% in July and September 2017, the Bank of Canada ("BoC") followed the Federal Reserve's (the "Fed") December move with another 0.25% rise in January 2018. Meanwhile, NAFTA related uncertainty also weighed on investors' minds as President Trump threatened to withdraw from the trade agreement should Canada and Mexico fail to agree to his proposed changes. Although the Canadian market broadly reflected the recovery in global equities during the second quarter of 2018, with energy and industrial companies leading the gains, concerns persisted over the outlook for consumer activity against the backdrop of subdued economic growth and rising interest rates. Despite ongoing concerns over trade tariffs on exports to the US and confirmation that the economy grew by just 0.30% during the first quarter of 2018, the BoC raised interest rates to 1.50% in July 2018, reflecting rising inflationary pressures.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Equities (continued)

Emerging markets equities

This market review summary covers iShares Core MSCI Pacific ex-Japan UCITS ETF, iShares MSCI Brazil UCITS ETF USD (Acc), iShares MSCI EM Asia UCITS ETF, iShares MSCI Korea UCITS ETF USD (Acc), iShares MSCI Mexico Capped UCITS ETF and iShares MSCI Russia ADR/GDR UCITS ETF.

Emerging market equities produced positive returns in the main over the Company's review year, albeit that substantial gains over the first half of the period were largely reversed as investors' appetite for risk declined sharply in early 2018. In regional terms, Far East emerging markets broadly outperformed their Latin American peers, with the Mexican and Brazilian markets increasingly impacted by political and economic concerns. However, the strength in oil & gas prices helped the energy rich Russian market to deliver substantial gains.

Very supportive global economic news flow helped export orientated emerging market equities to perform well early in the Company's review year. Although sporadic North Korea related tension impacted on investors' enthusiasm for markets regarded as higher risk, very encouraging corporate earnings, not least from a range of Far East technology companies, and positive economic data, particularly from China's industrial and consumer sectors, helped emerging market equities to push higher. Positive political developments in South Korea and Brazil, coupled with rising commodity prices, helped emerging markets to sustain the rally towards the end of 2017. However, Mexican equities lagged behind the broader advance amid rising interest rates as policymakers sought to combat higher inflation. Fears that the US could pull out of NAFTA also had an effect; approximately 84% of Mexican exports are destined for NAFTA partner markets of the US and Canada. Nevertheless, despite Mexico's woes, wider emerging markets extended their gains into January, as US tax reform and ongoing positive investor sentiment towards riskier assets pushed global equities higher, with the Russian market a particular beneficiary of the country's agreement with OPEC over production cuts.

However, emerging market stocks tumbled from their January 2018 peaks, underperforming even plunging developed market equities amid fears over the potential impact of faster than expected US interest rate rises. Although reassuring economic data shored up Chinese equities to some extent, broader emerging markets fared poorly over the first quarter of 2018 as a whole, partly reflecting a marked reduction in investors' appetite for risk amid rising global trade tensions. Country specific issues also impacted on investors' enthusiasm for emerging markets, with Argentina applying to the International Monetary Fund for an emergency loan and Turkey grappling with a slide in the Turkish Lira against the US Dollar, triggering fears over the health of the banking sector exposed to foreign currency loans. Although Mexican equities demonstrated some resilience as populist candidate Andrés Manuel López Obrador, who clinched victory at July 2018's Presidential election, appeared to moderate his previous anti business rhetoric, Brazilian equities ended the review year on a weak note, as fears over the economic outlook in the face of growing resistance, including significant industrial unrest, to economic reform all but wiped out the market's earlier gains. Despite their poor returns over much of the second half of the review year, Asia Pacific markets broadly retained some of their previous gains. However, Korean stocks ended lower; despite relief over the marked reductions in tensions with its northern neighbour, fears over the potential impact of a global trade war weighed on sentiment towards export oriented companies during the final weeks of the review year, with Samsung Electronics and steel group POSCO losing ground.

Fixed income

US government bonds

This market review summary covers iShares \$ Treasury Bond 1-3yr UCITS ETF USD (Acc) B, iShares \$ Treasury Bond 3-7yr UCITS ETF and iShares \$ Treasury Bond 7-10yr UCITS ETF USD (Acc).

US Treasury bond markets lost ground over the Company's review year, underperforming compared to their broader global government bond counterparts. Given the robust performance of the US economy, with consumer activity underpinned by the tight labour market, and the steady rise in US inflation, investors increasingly priced in a steeper than expected future path for US borrowing costs. Against this backdrop, longer dated bonds underperformed their shorter dated peers over the Company's review year.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Fixed income (continued)

US government bonds (continued)

US Treasury bond prices inched higher in August 2017, underpinned by a combination of subdued US inflation and 'safe haven' buying amid rising geopolitical tensions following North Korean belligerence, including a threat to attack the US territory of Guam. Despite a marked pickup in US economic growth from 1.20% during the first quarter of 2017 to a revised 3.10% for the subsequent three months, inflation hit 1.70% in July, compared to 2.70% as recently as the previous February. Nevertheless, growing investor conviction that inflation would rise as US economic growth built momentum would increasingly weigh on US Treasury bond prices over the remainder of 2017. With third quarter 2017 growth picking up to 3.20% and unemployment dipping to a 17 year low of 4.10%, the Fed began to reduce its balance sheet, gradually beginning the reversal of its massive QE program from October 2017. Meanwhile, outgoing Fed Chair Janet Yellen, while admitting that policymakers could not fully explain the subdued pattern of inflation, forecast that, as pricing pressures were nonetheless growing, policymakers should not be overly timid in raising interest rates. With inflation duly rising to 2.20% in November 2017, investors largely priced in December 2017's 0.25% Fed hike, a move that took benchmark lending costs to 1.50%. Nevertheless, Treasury bond prices slid around the turn of the calendar year following the political breakthrough over sweeping tax cuts and the OPEC/Russia agreement that looked set to underpin energy prices. The bond market weakness gathered pace in mid January 2018 as incoming Fed Chair Jerome Powell delivered an upbeat testimony over the outlook for the US economy, while robust pay and inflation data prompted investors to reassess the likely pace and extent of future US interest rate rises.

Nevertheless, Treasury bond markets stabilised over the remainder of the first quarter of 2018. Despite the ongoing strength of the jobs market, concerns that rising global trade tensions could act as a headwind to economic activity lent some support to global bond markets. Signs that the US economy, although continuing to grow, may have been losing some momentum given fears over the possible expansion of new import tariffs on steel and aluminium to cover other goods & services were partly vindicated as economic growth for the first quarter of 2018 eased to 2.20% compared to 2.80% and 2.30% over the third and fourth quarters of 2017. Nevertheless, amid renewed strength in the labour market as the jobless rate dipped to 3.80% in May 2018, inflationary pressures continued to rise, partly reflecting firm oil prices amid supply concerns as President Trump ratcheted up pressure on Iran. Compared to 2.00% in January 2018, inflation soared to 2.90% in June 2018, its highest level in over six years. Against this backdrop the Fed followed up March 2018's 0.25% interest rate rise with a similar move in June 2018, taking US borrowing costs to 2.00%, while suggesting that two further rises in 2018 were on the agenda. Against this backdrop, US 10 year bond yields rose from 2.30% to 3.00% over the review year, touching their highest level since 2011.

European government bonds

This market review summary covers iShares €Govt Bond 1-3yr UCITS ETF EUR (Acc), iShares €Govt Bond 3-7yr UCITS ETF and iShares €Govt Bond 7-10yr UCITS ETF EUR (Acc).

European government bond markets produced generally muted performance over the Company's review year but marginally outperformed relative to their wider global counterparts. Although short dated European government bonds saw modest price declines, their longer dated counterparts generated positive returns, with longer dated bonds' outperformance of their shorter dated peers most pronounced during the second half of the review year. Despite a jump in Italian bond yields amid concern over the new coalition government's economic policies, some moderation in Eurozone economic growth and optimism that the rise in inflation should soon fade underpinned sentiment towards longer dated European bonds. However, with the ECB calling an end to QE, and other leading central banks adopting tighter monetary policy, the prospect that Eurozone interest rates could rise during the second half of 2019 weighed to some extent on short dated debt prices.

European government bond markets firmed early in the review year. Despite ongoing signs that the Eurozone economy was performing well, North Korea related tension and some easing in inflation underpinned the market. Compared to 2.00% in January 2017, inflation across the single currency zone slipped to 1.50% in August 2017. However, with second quarter economic growth revised up to 0.70% and forward looking surveys increasingly positive, bond markets came under some pressure during the final quarter of 2017 amid speculation that the Eurozone economy no longer warranted exceptional levels of central bank stimulus. However, with inflation remaining in a tight 1.30% to 1.50% range during the final quarter of 2017 and political uncertainty rising as Angela Merkel struggled to form a coalition to lead Germany, Eurozone bond markets held up well relative to their US counterparts in late 2017.

Investment Manager's report (continued)

MARKET REVIEW (continued)

Fixed income (continued)

European government bonds (continued)

Nevertheless, having fallen alongside their international counterparts around the turn of the calendar year as energy prices rose and investors assessed the inflationary potential of sweeping cuts to US taxes, Eurozone bond markets stabilised in February and early March 2018. Cushioned to some extent by investors seeking safe havens from volatile stock markets, Eurozone bond markets also found support from a dip in inflation, which fell to just 1.10% in January 2018. Nevertheless, bond markets endured a bout of elevated volatility during the second quarter of 2018 as, following protracted talks, Italy's Five Star and Lega parties formed a government, with the coalition's plans over higher spending and lower taxes seemingly setting a collision course with the EU's deficit rules. Although higher oil prices increasingly fed through to boost Eurozone inflation, which would subsequently jump to 2.00% in June 2018, Eurozone government debt markets, particularly longer dated bonds, showed considerable resilience over the remainder of the review year, even as the ECB finally signaled the end of QE. This reflected investors' reduced appetite for risk as fears grew over the potential for a global trade war, and a broader slowdown in economic activity. Figures released on the final day of the Company's review year showed that Eurozone economic growth slowed from 0.40% during the first quarter of 2018 to 0.30% during the second quarter of 2018, compared to revised quarterly growth of 0.70% throughout 2017.

BlackRock Advisors (UK) Limited
August 2018

Board of Directors

Paul McNaughton (Irish) Chairman of the Board, Independent non-executive Director, member of the Audit Committee and Nomination Committee (appointed 1 July 2013):

Mr. McNaughton has over 25 years' experience in the Banking/Finance, Fund Management and Securities Processing Industries. In addition Mr. McNaughton spent 10 years with IDA (Ireland) both in Dublin and in the USA marketing Ireland as a location for multinational investment. He went on to establish Bank of Ireland's IFSC Fund's business before joining Deutsche Bank to establish their funds business in Ireland. He was overall Head of Deutsche Bank's Offshore Funds business, including their hedge fund administration businesses primarily based in Dublin and the Cayman Islands, before assuming the role of Global Head of Deutsche's Fund Servicing business worldwide. Mr. McNaughton left Deutsche Bank in August 2004 after leading the sale of Deutsche's Global Custody and Funds businesses to State Street Bank and now acts as an advisor and non-executive director for several investment companies and other financial entities in Ireland including several alternative/hedge fund entities. Mr. McNaughton holds an Honours Economics Degree from Trinity College Dublin. He was the founding Chairman of the Irish Funds Industry Association ("Irish Funds") and a member of the Irish Government Task Force on Mutual Fund Administration. He was instrumental in the growth of the funds business in Ireland both for traditional and alternative asset classes.

Paul McGowan (Irish) Chairman of the Audit Committee, Independent non-executive Director, Senior Independent Director and Member of the Nomination Committee (appointed 1 July 2013):

Mr. McGowan was a financial services tax partner in KPMG (Ireland) for more than 25 years and was Global Head of Financial Services Tax for KPMG (International). He is a former Chairman of both Irish Funds and the IFSC Funds Working Group. He currently holds a number of non-executive directorships including Chairman of AEGON Ireland Plc and Coronation Capital Ltd and is a Director of Epoch Investments Fund Plc. He was appointed to the EU Arbitration Panel on transfer pricing by the Irish Government. Mr. McGowan is a Fellow of the Institute of Chartered Accountants in Ireland and holds a Business Studies degree from Trinity College Dublin and a Diploma in Corporate Financial Management from Harvard Business School.

Barry O'Dwyer (Irish) Non-Executive Director and member of the Nomination Committee (appointed 1 July 2013):

Mr. O'Dwyer is a Managing Director of BlackRock. He is the Head of Funds Governance for BlackRock's European open-ended fund range and is the Chief Operating Officer for BlackRock's Irish business. He serves as a Director on a number of BlackRock corporate, fund, and management companies in Ireland, Luxembourg, Switzerland and Germany and on BlackRock's UK Life company. He was the chairman of the Irish Funds Industry Association 2014-2015, is a board director of Financial Services Ireland and is a member of An Taoiseach's Financial Services Industry Advisory Committee.

He joined BlackRock Advisors (UK) Limited in 1999 as head of risk management and moved to his present role in 2006. Prior to joining BlackRock Advisors (UK) Limited, Mr. O'Dwyer worked as a risk manager at Gartmore Investment Management and at HypoVereinsbank and National Westminster Bank. Mr. O'Dwyer graduated from Trinity College Dublin with a degree in Business Studies and Economics in 1991. He holds a Chartered Association of Certified Accountants qualification and an MBA from London City University Business School.

Teresa O'Flynn (Irish) Non-Executive Director (appointed 6 January 2016):

Ms. O'Flynn is a Managing Director at BlackRock and is Global Head of BlackRock Real Assets Sustainable Investing and a senior Portfolio Manager with BlackRock's Global Renewable Power platform. BlackRock Real Assets comprises the Infrastructure and Real Estate platforms, which has 375+ professionals across 25 cities globally, and manages over \$40 billion in equity and debt assets and investor commitments. Ms. O'Flynn is responsible for ensuring sustainable investing themes are embedded across BlackRock Real Assets investments, portfolio management, product development, reporting and communications. Ms. O'Flynn joined BlackRock in 2011 to establish the Renewable Power Infrastructure business which currently has \$5bn of assets under management ("AUM"). She is responsible for originating investment opportunities, establishing industry partnerships and developing new investment strategies in the renewable power sector. She sits on the World Economic Forum's Future of Energy Council, is a member of the Board of the Terrawatt Initiative and also serves as a Director on BlackRock's Index and Cash Irish fund companies.

Prior to joining BlackRock, Ms. O'Flynn was a Senior Corporate Finance Executive at NTR Plc, a private infrastructure developer, operator and business owner. Ms. O'Flynn trained as a Chartered Accountant (FCA) and tax advisor (AITI) with Arthur Andersen and KPMG. Ms. O'Flynn earned a BComm Degree, with first class honors and distinction, from University College Galway, Ireland.

Board of Directors (continued)

David Moroney (Irish) Non-Executive Director (appointed

15 November 2017): Mr. Moroney is a Managing Director at BlackRock and is the EMEA Product Head for ETF and Index Investments. Mr. Moroney joined BlackRock in January 2017. Prior to assuming his current responsibilities, he worked at Royal Bank of Scotland since 2008 where he held positions including Global Head of Investor Product Structuring and Structured Funds and Chief Operating Officer of Capital Resolution UK. He has over 20 years of experience in securities, derivatives and regulated funds and has had responsibilities in trading, structuring, custom indices, risk and governance. Mr. Moroney holds a Ph.D. in Electromagnetics from Trinity College Dublin, an M.Sc. from the University of Oxford and a B.A. in Mathematics also from Trinity College.

Jessica Irschick (British) Non-executive Director (appointed

20 November 2017): Ms. Irschick is a Managing Director at BlackRock and is the Global Head of Institutional Index business within ETF and Index Investments. Ms. Irschick is responsible for the institutional product offering, pricing, and investment strategy for Equity Indexing and for coordinating with Global Fixed Income to have a globally consistent institutional client strategy for Fixed Income Indexing. In addition, she is the Global Head of Equity Index Product Strategy.

Ms. Irschick joined BlackRock in November 2016 from Bank of America Merrill Lynch, where she was the Global Head of Sales Strategy of the Equity Division, based in London. Previously, Ms. Irschick was the Global Head of Treasury and Trading for Norges Bank Investment Management (NBIM) where she was responsible for Fixed Income and Equity trading, financing, securities lending and foreign exchange. Prior to her role at NBIM she worked at UBS, Morgan Stanley and Goldman Sachs for over 13 years in a variety of roles in equity trading, sales and client relationship management. Before these roles, Ms. Irschick worked as the Global Head of Equity and Fixed Income trading at Wells Fargo Nikko Investment Advisors in San Francisco, one of the predecessor organisations of BlackRock. Ms. Irschick started her career at Salomon Brothers, where she worked in Tokyo developing algorithms for the Fixed Income and Equity trading desks. Ms. Irschick graduated from Cornell University in 1987 with a Bachelor's degree in Operations Research and Economics.

Corporate Governance Statement

Introduction

The Board is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Company's affairs. The Company has voluntarily adopted the governance standards set out in the UK Corporate Governance Code (the "Code") issued by the Financial Reporting Council ("FRC") which is applicable to accounting periods beginning on or after 17 June 2016.

The Company is also subject to corporate governance practices imposed by the UCITS Regulations which can be obtained from the CBI's website at <http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx> and are available for inspection at the registered office of the Company.

The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes both adheres to best practice and is appropriate for the Company, given the nature of its structure as an Investment Company.

The Code is published by the FRC and is available to download from <http://www.frc.org.uk>. The Company has also voluntarily adopted the Irish Funds Industry Association Corporate Governance Code for Collective Investment Schemes and Management Companies (Dec 2011) (the "Irish Funds Code") and, in addition, refers to this Code for the financial year under review. The Irish Funds Code can be obtained from the Irish Funds website at <https://www.irishfunds.ie/regulatory-technical/corporate-governance>.

The sole objective of the Company is the collective investment in transferable securities and /or other liquid financial assets referred to in Regulation 68 of the Central Bank UCITS Regulations of capital raised from the public and which operates on the principle of risk spreading. The Articles of Association of the Company provide that the Company may offer separate classes of shares, each representing interests in a Fund comprising a distinct portfolio of investments. The shares of each Fund are issued on different terms and conditions to those of the other Funds. The specific investment objectives and policies of each Fund are formulated by the Directors at the time of the creation of the Fund and any change to a Fund's investment objective and/or material change to the investment policy of a Fund is subject to the prior consent of Shareholders evidenced by either a majority vote at a meeting of Shareholders of a Fund or by written consent of all the Shareholders.

This statement summarises the corporate governance structure and processes in place for the Company for the financial year under review.

Compliance

The Board has made the appropriate disclosures in this report to ensure the Company meets its continuing obligations pursuant to the code. The Company has no employees and the Directors are all non-executive. The Board recognises that the shareholders of the Company invest into a regulated Investment Company and considers that the governance structure and operational processes in place for the Company are suitable for an Investment Company.

The Board considers that the Company has complied with the relevant provisions contained within the Code throughout this accounting period except, as explained below, where departure from the Code is considered appropriate given the Company's position as an Investment Company. This Corporate Governance Statement, together with the Statement of Directors' Responsibilities, describes how the main principles of the Code are applied to the Company.

The Code includes provisions relating to:

- (i) the appointment and role of the Chief Executive;
- (ii) executive Directors' remuneration;
- (iii) the need for an internal audit function; and
- (iv) the need to establish a Remuneration Committee.

Due to the nature of its structure as an Investment Company, the Board does not consider these provisions appropriate to the Company. Therefore the Company was not compliant with these provisions during and post the financial year under review.

Corporate Governance Statement (continued)

Compliance (continued)

The Code also includes provisions for the re-election of Directors by shareholders with which the Company was in compliance during the financial year under review. Additionally the Articles of Association provide that retiring Directors are eligible for re-appointment by the other Directors every three financial years.

The Board considers that the Company has been in full compliance with the Irish Funds Code during the financial year under review.

Board composition

The Board currently consists of six non-executive Directors, two of whom are independent. The Board is committed to maintaining an appropriate balance of skills, experience, independence and knowledge amongst its members.

In accordance with the Code, the Board has carried out an assessment based on the independence requirements set out therein and has determined that, in its judgement the Chairman, Mr. Paul McNaughton, and Mr. Paul McGowan are independent within the meaning of those requirements. They are independent of the Manager, the Investment Manager and other third party service providers such as the Administrator and Depositary. The Board has also considered and is satisfied that the presence of two non-executive independent Directors (including the Chairman) is an appropriate balance for the Board. The Board has appointed Mr. Paul McGowan as the Senior Independent Director.

The Directors' biographies, collectively demonstrate a breadth of investment knowledge, business and financial skills which enables them to provide effective strategic leadership, oversight and proper governance of the Company.

Delegation of responsibilities

The Directors of the Company have delegated the following areas of responsibility:

Management and Administration

The Directors of the Company have delegated the investment management, distribution and administration of the Company and its Funds to the Manager. The Manager has delegated the management of the investment portfolio and distribution of the Company's shares to the Investment Manager. The Investment Manager operates under guidelines determined by the Manager and as detailed in the Company's prospectus relating to the Company's Funds. The Investment Manager has direct responsibility for the decisions relating to the day-to-day running of the Company's Funds and is accountable to the Board of the Manager and the Company for the investment performance of the Funds.

The Board has established a Nominations Committee and an Audit Committee. The Directors of the Company have delegated certain functions to these committees. Please see the "Committees of the Board" section in this Corporate Governance Statement for further details.

Insurance

The Company has maintained appropriate Directors' and Officers' liability insurance cover throughout the financial year.

Board's responsibilities

The Board meets monthly and also on an ad hoc basis as required. All Directors are expected to attend each meeting and the attendance at board and committee meetings during the financial year is set out on the following pages. Directors are provided with relevant papers in advance of each meeting. In addition, electronic copies of meeting papers and other relevant information are available to Directors. If a Director is unable to attend a meeting, they will still receive the supporting papers. During the financial year, ad hoc Board meetings were arranged at short notice and it was not always possible for all Directors to attend.

The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, the appointment and removal of the Company Secretary and entering into any material contracts. The Board also approves the prospectus, circulars to shareholders, listing particulars and other relevant legal documentation. A formal schedule of matters specifically reserved for decision by the Board is maintained.

Corporate Governance Statement (continued)

Board's responsibilities (continued)

Any Director who resigns his/her position is obliged to confirm to the Board and the CBI that the resignation is not connected with any issues with or claims against the Company. Furthermore, any Director who has concerns about the running of the Company or a proposed course of action may provide a written statement to the Chairman outlining his/her concerns for circulation to the Board or alternatively may have his/her concerns formally recorded in the minutes of a board meeting.

The Board has responsibility for ensuring that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and which enable it to ensure that the financial statements comply with the Companies Act 2014 (as amended) and relevant accounting standards. It is the Board's responsibility to present a balanced and understandable assessment of the Company's financial position, which extends to interim financial statements and other reports made available to shareholders and the public. The Board is also responsible for safeguarding the assets of the Company and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

The Directors have access to the advice and services of the Company Secretary, external counsel and the resources of the Investment Manager should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice at the expense of the Manager.

Directors' induction and training

Prior to his/her appointment, each new Director receives a full and formal tailored induction incorporating relevant information regarding the Company and his/her duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of the Investment Manager so that the new Director will become familiar with the various processes which the Investment Manager considers necessary for the performance of his/her duties and responsibilities to the Company.

The Company's policy is to encourage Directors to keep up to date with developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by the Investment Manager which are relevant to the Company. The Directors also receive regular briefings from, amongst others, PricewaterhouseCoopers Ireland (the "External Auditors"), investment strategists, depositaries and legal advisors regarding any proposed product developments or changes in laws or regulations that could affect the Company. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The training needs of the Directors are evaluated as part of the annual performance evaluation of the Board. Further information in respect of performance evaluation is provided below.

Performance evaluation

The Board formally reviews its performance on an annual basis and an appraisal system has been implemented for the Board, its supporting Committees and the individual Directors, including the Chairman. This evaluation process assists in identifying individual Directors training and development needs. The Board is satisfied with the robustness of the appraisal system and considers the current review and evaluation process adequate. The Board evaluation for 2017 was completed on 14 February 2018.

Committees of the Board

The Nominations Committee

The Board has established a Nominations Committee comprising a majority of independent Directors. The Nominations Committee comprises of Mr. Paul McNaughton (Chairman), Mr. Paul McGowan and Mr. Barry O'Dwyer. The key objective of the Nominations Committee is to ensure the Board comprises individuals with the appropriate balance of skills, experience, independence and knowledge appropriate to the Company to ensure that it is effective in discharging its responsibilities and oversight of all matters relating to corporate governance.

The Nominations committee is responsible for evaluating and nominating for the approval of the Board, candidates to fill Board vacancies as and when they arise. Before a proposal is made to the Board, the Committee members will ensure that the capabilities required for a particular appointment have been considered. They will also ensure that on appointment to the Board, Non-Executive Directors receive a formal letter of appointment setting out clearly what is expected of them in terms of time commitment, committee service and involvement outside Board meetings.

Corporate Governance Statement (continued)

Committees of the Board (continued)

The Nominations Committee (continued)

The terms of reference of the Nominations Committee are available upon request.

The Nominations Committee met on 30 November 2017 in order to review the Committee's terms of reference and its own performance and to review the structure, size and composition of the Board.

Diversity Report

The Nominations Committee, together with the Board, acknowledges the importance of diversity to enhance its operation. During the selection process the Board and Nominations Committee are committed to selecting those with diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes. The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each director to contribute individually, and as part of the board team, to the effectiveness of the Board. Subject to that overriding principle, the Board believe that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst board members is of great value when considering overall board balance in making new appointments to the Board. The Boards' priority is to ensure that it continues to have strong leadership and the relevant skills to deliver the business strategy. The implementation of the Boards diversity policy is monitored by the Nomination Committee which reviews the balance of skills, knowledge, experience and diversity on the Board and leads succession planning for appointments to the Board. The Nominations Committee will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminatory. The Board's policy is to aspire to have women make up at least 30% of the Boards' membership and currently has a female representation of 33%. The current Board composition reflects diverse age, gender, educational and professional backgrounds.

Audit Committee

The Company has established an Audit Committee which reports directly to the Board and meets regularly throughout the financial year in order to discharge its duties. Further information on how the Audit Committee carried out its duties during the financial year under review is contained in the Audit Committee report.

The Board considered that all of the members of the Audit Committee were suitably qualified and had sufficient experience to discharge their responsibilities effectively. Furthermore, Paul McGowan is a qualified accountant with relevant experience in financial matters as they pertain to investment companies.

The number of Board and Audit Committee meetings and their attendance by members are set out on the table below:

Attendance Record

	Board ¹ 1 August 2017 to 31 July 2018		Audit Committee ² of the Company 1 August 2017 to 31 July 2018		Nominations Committee of the Company 1 August 2017 to 31 July 2018	
	A*	B*	A*	B*	A*	B*
Barry O'Dwyer	13	13	N/A	N/A	1	1

¹ There were 12 scheduled and 1 ad-hoc Board meetings held during the financial year.

² There were 11 scheduled and 2 ad-hoc Audit Committee meetings held during the financial year.

Corporate Governance Statement (continued)

Internal Control and Risk Management

The Board is responsible for the risk management and internal controls of the Company and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable, and for regularly monitoring compliance with regulations governing the operation of the Company. Particular responsibilities have been delegated to the Audit Committee as outlined in the Audit Committee report. The system is designed to manage rather than eliminate the risk of failure to achieve the Company's business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss and relies on the operating controls established by the service providers. The Board is also responsible for overseeing the management of the most significant risks through the regular review of risk exposures and related key controls.

The Board reviews the Company's principal risks and the control processes over the risks identified. The control processes cover financial, operational, compliance and risk management, and are embedded in the operations of the Manager, the Investment Manager and other third party service providers including the Administrator and the Depositary. There is a monitoring and reporting process to review these controls, which has been in place throughout the financial year under review and up to the date of this report. The Board can confirm that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency and liquidity, which are identified and explored in greater detail within the section 'Financial Instruments and Risks' which forms part of the financial statements. This section also explains how these risks are being managed and mitigated.

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Depositary. The annual and half-yearly financial statements of the Company are required to be approved by the Board of Directors of the Company and filed with the CBI and the LSE. The financial statements are prepared in accordance with accounting standards generally accepted in Ireland, the Companies Act 2014 (as amended) and the UCITS Regulations. The accounting information given in the annual report is required to be audited. The External Auditors' report, including any qualifications, is reproduced in full in the annual report of the Company.

Monitoring and review activities

There are procedures designed for monitoring the system of internal control and risk management and to capture and evaluate any failings or weaknesses. Should a case be categorised by the Board as significant, procedures exist to ensure that necessary action is taken to remedy the failings.

During the financial year under review the Depositary reported to the Board on a quarterly basis.

The Depositary and the Administrator provide an annual Service Organisational Control ("SOC1") Reports outlining an overview of the controls environment adopted and applied by the Depositary and the Administrator to the Investment Manager. The Investment Manager reports annually on it to the Audit Committee of the Company. The Manager receives a report from the Administrator on the internal controls of the administrative operations of the Company and the Administrator reports to the Board on an annual basis.

Review of effectiveness

The Board has reviewed the effectiveness of the internal control and risk management systems (including financial, operational and compliance controls) in accordance with the Code for the financial year under review and up to the date of approval of the financial statements. The Board is not aware of any significant failings or weaknesses in internal control arising during this review. Had there been any such failings or weaknesses, the Board confirms that necessary action would have been taken to remedy them.

Going Concern and Viability Statement

The going concern statement is set out in the Directors' Report.

Remuneration

The Company is an Investment Company and has no employees or executive Directors. The Board believes that the principles of Section D of the Code relating to remuneration do not apply to the Company, except as outlined below, as the Company has no executive Directors. No Director past or present has any entitlement to pensions, and the Company has not awarded any share options or long-term performance incentives to any of them. No element of Directors' remuneration is performance-related.

Corporate Governance Statement (continued)

Remuneration (continued)

Those Directors who are also employees of the BlackRock Group are not entitled to receive a Director's fee. All other Directors have fees paid to them which are set out in service contracts with the Investment Manager. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the time commitment and responsibilities of their roles. The maximum amount of remuneration payable to the Directors is determined by the Board and is set out in the prospectus of the Company.

The terms of the aforementioned service contracts are for one financial year and include an assessment of the time commitment expected of each Director. The Directors also have a continuing obligation to ensure they have sufficient time to discharge their duties. The detail of each Director's, including the Chairman's, other appointments and commitments are made available to the Board for inspection and all new appointments or significant commitments require the prior approval of the Investment Manager. The Directors, who are employees of the BlackRock Group, have executed letters of appointment which include an assessment of the time commitment expected. Extracts of the service contracts as they relate to the Company and letters of appointment are available for inspection on request and at each Annual General Meeting ("AGM").

Communication with Shareholders

The Company is an Investment Company and the shareholders invest in its range of Funds in order to, inter alia, gain exposure to the expertise of the Investment Manager and its investment strategies. Given the nature of the Company, it is not necessary or desirable for the Chairman or any of the other Directors to discuss investment strategy with shareholders. Furthermore, the Manager has appointed the Investment Manager as distributor and it is this entity which is tasked with actively managing the relationship between the Company and its shareholders.

The Board reviews monthly reports on shareholder communications and in addition, the Board reviews reports from the Manager's compliance function which include updates on shareholder complaints.

The Board is responsible for convening the AGM and all other general meetings of the Company. All shareholders have the opportunity to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Companies Act and the Articles of Association of the Company and notice of the AGM is sent out at least 20 working days in advance of the meeting, and any item not of an entirely routine nature is explained in a covering circular. For all other general meetings the notice is sent at least 14 working days in advance. All substantive matters put before a general meeting are dealt with by way of separate resolution.

Proxy voting figures are noted by the chairman of the general meeting and the results of each general meeting, including the number of votes withheld, will be announced and made available on the iShares website shortly after the meeting. When it is the opinion of the Board that a significant proportion of votes have been cast against a resolution at any general meeting, the Board will explain when announcing the results what actions it intends to take to investigate and understand the reasoning behind the result.

General meetings are managed and run by the Company Secretary. Strategic issues and all operational matters of a material nature are determined by the Board. If the shareholders wish to engage on matters relating to the management of the Company then invariably they will wish to discuss these matters or meet with the Investment Manager.

However, the Board will accept requests to make individual Directors available to shareholders. One of the independent Directors is always available to attend general meetings. The Chairman of the Audit and Nominations Committees will be available to attend general meetings and to answer questions, if required, while the Senior Independent Director will be also available to liaise with shareholders, where required. Every holder of participating shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present in person or by proxy is entitled to one vote in respect of each share held by him. The poll may be demanded by the chairman of a general meeting or at least five members present in person or by proxy or by any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting.

Audit Committee Report

The Board has established an Audit Committee whose roles and responsibilities are detailed below.

Roles and Responsibilities

The main responsibilities of the Audit Committee include considering and recommending to the Board for approval the contents of the interim and annual financial statements, and providing an opinion as to whether the annual financial statements, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Company's performance, business model and strategy. The Audit Committee also reviews related information presented within the financial statements, including statements concerning internal controls and risk management. In addition, the Audit Committee is responsible for approving the audit fees of the External Auditor, conducting a review of the External Auditors' report on the annual financial statements and reviewing and forming an opinion on the effectiveness of the external audit process and audit quality. Other duties include reviewing the appropriateness of the Company's accounting and reporting to the Board on how it has discharged its responsibilities.

There are formal terms of reference in place for the Audit Committee. The terms of reference of the Audit Committee are available to shareholders on request.

The Audit Committee has met 13 times during the financial year. These meetings were to consider various items including updates in the regulatory environment as they relate to the financial statements of the Company, updates on the Company's accounting policies and progress reports on the audit. The significant issues considered by the Audit Committee in relation to the financial statements are discussed below and overleaf.

Financial Statements

The Audit Committee reviewed the interim financial statements, annual financial statements and the audit findings presentation from the External Auditors.

Significant issues considered in relation to the financial statements

During the financial year, the Audit Committee considered a number of significant issues and areas of key audit risk in respect of the Annual Report and Financial Statements. The Committee reviewed the external audit plan at an early stage and concluded that the appropriate areas of audit risk relevant to the Company had been identified in the audit plan and that suitable audit procedures had been put in place to obtain reasonable assurance that the financial statements as a whole would be free of material misstatements. Below sets out the key areas of risk identified and also explains how these were addressed by the Committee.

1. Valuation

The Board has in place a hierarchical structure for the pricing of every asset class of the Company which details the primary, secondary and tertiary pricing sources (the "Pricing Hierarchy"). The Administrator has been appointed for the purposes of valuing each asset class of the Company. The Administrator follows the Pricing Hierarchy in this regard. During the financial year under review, monthly reporting was provided by the Investment Manager in which any exceptions to this process were identified and investigated and referred to the Board. The Audit Committee considers that the procedures that the Board has in place to monitor the Administrator and Investment Manager are adequate and appropriate. The Audit Committee discussed with the External Auditor the results of the financial year end audit procedures over the valuation of investments. No significant exceptions to valuation of the assets were noted during the financial year under review.

2. Existence

In order to gain comfort on the existence of the assets of the Company, a daily reconciliation of all asset classes is performed by the Administrator between their records and the separate records held by counterparties, the Depositary and the Investment Manager. During the financial year under review, any material exceptions identified by these reconciliations were reported on a monthly basis by the Investment Manager and quarterly by the Administrator and Depositary. The Depositary also provided a report in relation to the oversight of its global sub-custodian and global custody network and any exceptional items regarding existence of assets of the Company were referred for consideration by the Audit Committee. The Audit Committee considers that the procedures that the Board has in place to monitor the Administrator and Investment Manager are adequate and appropriate. The Audit Committee discussed with the External Auditor the results of the financial year end audit procedures over the existence of investments. No significant exceptions to the existence of the assets were noted during the financial year under review.

Audit Committee Report (continued)

Roles and Responsibilities (continued)

Significant issues considered in relation to the financial statements (continued)

3. Risk of Management Override

The Depositary and Administrator provided reports to the Board on an annual basis on the controls in place to minimise the risk of management override. In addition to this, the Manager has reviewed the SOC1 prepared by the Depositary and Administrator to further ensure that the relevant control procedures were in place to minimise the risk of management override. The SOC1 of the Investment Manager is also presented annually for review. Any exceptions noted were referred to the Audit Committee for further review. No significant exceptions in respect of the risk of management override were noted during the financial year under review.

Fair, Balanced and Understandable

The production and audit of the financial statements is a comprehensive process requiring input from a number of different contributors. Following the adoption of the Code by the Company, the Board requested that the Audit Committee advises on whether it believes the financial statements, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Company's position and performance, business model and strategy. In doing so the Audit Committee has given consideration to the following:

- ▶ The comprehensive reviews that are undertaken at different levels in the production process of the financial statements, by the Manager and the Administrator;
- ▶ The comprehensive review also undertaken during the production process by the Investment Manager;
- ▶ The comprehensive review undertaken by the Audit Committee that is aimed to ensure consistency, overall balance and appropriate disclosure;
- ▶ The controls that are in place at the Investment Manager, the Administrator and Depositary, to ensure the completeness and accuracy of the Company's financial records and the security of the Company's assets;
- ▶ The existence of satisfactory SOC1 control reports reviewing the effectiveness of the internal controls of the Investment Manager, the Administrator and the Depositary; and
- ▶ The timely identification and resolution of any significant audit risks, process errors or control breaches that may have impacted the Company's NAV and accounting records and how successfully any issues in respect of areas of accounting judgement were identified and resolved.

As a result of the work performed, the Audit Committee has concluded that the financial statements for the financial year ended 31 July 2018, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholders to assess the Company's performance, business model and strategy. The Audit Committee has reported on these findings to the Board and recommended the approval of the financial statements to the Board. The Board's conclusions in this respect are set out in the Statement of Directors' Responsibilities.

External Auditor

To assess the effectiveness of the external audit, members of the Audit Committee work closely with the Investment Manager and the Manager to obtain a good understanding of the progress and efficiency of the audit.

Feedback in relation to the audit process and the efficiency of the Investment Manager and the Manager in performing their role is sought from relevant involved parties, notably the audit partner and audit team. The External Auditor is invited to attend the Audit Committee meetings at which the annual financial statements are considered.

PricewaterhouseCoopers Ireland, in their capacity as statutory auditor, has acted as the External Auditor for the Company since 20 December 2013 and the lead audit partner rotates every five years to assure independence. To form a conclusion with regard to the independence of the External Auditor, the Audit Committee considers whether their skills and experience make them a suitable supplier of non-audit services and whether there are safeguards in place to ensure that there is no threat to their objectivity and independence in the conduct of the audit resulting from the provision of such services. The audit and assurance services fees are disclosed in note 16 of the financial statements of the Company.

Audit Committee Report (continued)

External Auditor (continued)

On an annual basis, the External Auditor reviews the independence of its relationship with the Company and reports this to the Board. The Audit Committee also receives information about policies and processes for maintaining independence and monitoring compliance with relevant requirements from the Company's External Auditors, including information on the rotation of audit partners and staff, details of any relationships between the audit firm and its staff and the Company as well as an overall confirmation from the External Auditors of their independence and objectivity.

As a result of its review, the Audit Committee has concluded that PricewaterhouseCoopers Ireland, as External Auditor, is independent of the Company. The Audit Committee has conducted a review of independence of the External Auditor and has in place a pre-approval policy on the engagement of the External Auditor to supply non-audit services.

On 16 June 2014, the European parliament and council passed into law a new Audit Directive and Regulation ('Directive') which updated the EU regulatory framework on statutory audits. Member states had two years to implement legislation to transpose, adopt and publish the provisions to comply with the directive, and on 15 June 2016 a Statutory Instrument was signed in Ireland that gave effect to the Directive. Accordingly, such legislation will apply to the year-end commencing 1 March 2017, being the first financial year starting on or after 17 June 2016. The legislation covers mandatory audit firm rotation, additional restrictions on the provision of non-audit services, requirements relating to audit committee oversight of the performance of the audit, and new requirements regarding reporting by the Auditor.

The Audit Committee conducted a competitive tender process during 2017 for the position of auditor of the Company, resulting in a recommendation, which was endorsed by the Board, that Deloitte be appointed as External Auditor for the financial year commencing 1 August 2018. A resolution proposing this appointment will be presented to shareholders at the November 2018 AGM. The process undertaken to reach this decision involved written submissions and presentations by each of the invited firms. This transition process will continue to be a focus for the Board in 2018.

Internal Audit

The Board considers it appropriate for the Company not to have its own internal audit function as all of the management and administration of the Company is delegated to the Manager, Investment Manager, Administrator and Depositary. The internal audit report prepared by the Investment Manager is provided to the Audit Committee on a quarterly basis.

Whistleblowing Policy

The Investment Manager has a "Whistleblowing" policy under which its staff, in confidence, may raise concerns about possible improprieties in matters of financial reporting or other matters insofar as they may affect the Company. As the Company does not have any employees, the Board review this policy on an annual basis and have adopted this policy as the Company's "Whistleblowing" policy.

Audit Committee Effectiveness

The performance of the Audit Committee is reviewed at least annually. The Audit Committee evaluation for 2017 was completed on 14 February 2018.

Paul McGowan
Chairman of the Audit Committee
28 November 2018

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with Irish law and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Irish law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. Under that law the Directors have prepared the financial statements in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the FRC of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and issued by the FRC).

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- ▶ select suitable accounting policies and then apply them consistently;
- ▶ make judgements and estimates that are reasonable and prudent;
- ▶ state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- ▶ prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- ▶ correctly record and explain the transactions of the Company;
- ▶ enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- ▶ enable the Directors to ensure that the financial statements comply with the Companies Act 2014 (as amended) and enable those financial statements to be audited.

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the appointment of State Street Fund Services (Ireland) Limited for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address on behalf of the Administrator:

State Street Fund Services (Ireland) Limited
78 Sir John Rogerson's Quay
Dublin 2
Ireland

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors have entrusted the assets of the Company to the Depositary for safekeeping in accordance with the Memorandum and Articles of Association of the Company. In this regard the Directors have appointed State Street Custodial Services (Ireland) Limited as Depositary pursuant to the terms of the Depositary Agreement. The address at which this business is conducted is as follows:

State Street Custodial Services (Ireland) Limited
78 Sir John Rogerson's Quay
Dublin 2
Ireland

Statement of Directors' Responsibilities (continued)

Under applicable law and regulations, the Directors are also responsible for preparing a corporate governance statement that complies with that law and those regulations.

The financial statements are published on the www.ishares.com website. The Directors, together with the Manager and the Investment Manager are responsible for the maintenance and integrity of the financial information included in this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

The Directors confirm to the best of their knowledge, that:

- ▶ The annual report and financial statements of the Company and the Funds are prepared in accordance with accounting standards generally accepted in Ireland, the Companies Act and the UCITS Regulations and disclose with reasonable accuracy the financial position of the Company and give a true and fair view of the assets, liabilities and financial position and profit or loss of the Company and Funds for the financial year;
- ▶ The annual report and financial statements of the Company and the Funds include a fair review of the development and performance of the business and the position of the Company together with a description of the principal risks and uncertainties that it faces.

The Code also requires Directors to ensure that the annual report and financial statements are fair, balanced and understandable and provide the information necessary for shareholder to assess the Company's position and performance, business model and strategy. In order to reach a conclusion on this matter, the Board of Directors have requested that the Audit Committee advise on whether they consider that the financial statements fulfil these requirements. The process by which the Audit Committee has reached these conclusions is set out in the Audit Committee report. As a result of a comprehensive review, the Directors have concluded that the financial statements for the financial year ended 31 July 2018, taken as a whole, are fair, balanced and understandable and provide the information necessary for shareholder to assess the Company's performance, business model and strategy.

Directors' Compliance Statement

In accordance with Section 225 of the Companies Act 2014 (as amended), the Directors are required to acknowledge that the Company is in compliance with its relevant obligations. The Directors further confirm that, based on the procedures implemented and review process established, they have used all reasonable endeavors to secure the Company's compliance with the following obligations and requirements:

1. A compliance policy has been prepared setting out the Company's procedures (that, in the Directors' opinion, are appropriate to the Company) for ensuring compliance by the Company with its relevant obligations;
2. An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Company's relevant obligations; and
3. An annual review procedure has been put in place to review the Company's relevant obligation and ensure a structure is in place to comply with these obligations.

On behalf of the Board of Directors

Paul McNaughton
Director

28 November 2018

Paul McGowan
Director

28 November 2018

Directors' Report

The Directors present the financial statements for the financial year from 1 August 2017 to 31 July 2018.

Review of Business and Future Developments

The financial statements have been prepared in accordance with applicable Irish law and Generally Accepted Accounting Practice in Ireland including the accounting standards issued by the FRC and comply with the Irish Companies Act 2014 (as amended) and the UCITS Regulations.

The specific investment objectives and policies, as set out in the Investment Manager's report, of each Fund are formulated by Directors at the time of the creation of the Fund. Investors in a Fund are expected to be informed investors who have taken professional advice, are able to bear capital and income risk, and should view investment in a Fund as a medium to long term investment. A description of the Funds, market review and market outlook can be found in the Background section and the Investment Manager's report. Market review encompasses tracking error and tracking difference disclosures which are key metrics as to how well the Funds have been managed against their benchmark indices.

Risk management objectives and policies

The financial instruments and risks facing the Company are set out on pages 76 to 98. The Company's corporate governance statement is set out on pages 26 to 31.

Results and Dividends

The results and dividends for the financial year are set out in the income statement on pages 47 to 54.

Subsequent Events

The subsequent events which have occurred since the balance sheet date are set out in note 17 of the notes to the financial statements of the Company.

Directors' and Company Secretary's Interests and Related Party Transactions

The Directors and Company Secretary had no interest in the shares of the Company during the financial year ended 31 July 2018 other than those disclosed in the related party transactions note 15 of the financial statements of the Company.

No Director had at any time during the financial year, a material interest in any contract of significance, during or at the end of the financial year in relation to the business of the Company.

All related party transactions are set out in note 15 of the notes to the financial statements of the Company.

Board of Directors

The Board of Directors of the Company and their biographies are set out on pages 24 to 25.

Statement of Directors' Responsibilities

The Statement of Directors' Responsibilities in respect of the financial statements is set out on pages 35 and 36.

Going Concern

The financial statements of the Company have been prepared on a going concern basis. The Company is able to meet all of its liabilities from its assets. The performance, marketability and risks of the Funds are reviewed on a regular basis throughout the financial year. Therefore the Directors believe that the Company will continue in operational existence for the foreseeable future and is financially sound. The Directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements of the Company.

Directors' Report (continued)

Viability Statement

The updated Code includes a proposal for companies to include a "Viability Statement" addressed to shareholders with the intention of providing an improved and broader assessment of long term solvency and liquidity. The Code does not define "long term" but expects the period to be longer than 12 months with individual companies choosing a financial period appropriate to the nature of their own business. The Board conducted this review for the financial period up to the AGM in 2021, being a three year period from the date that this annual report will be approved by Shareholders. The reason the Directors consider three years to be an appropriate financial period to review is that they do not expect there to be any significant change in the Company's current principal risks and adequacy of the mitigating controls during that financial period. Furthermore, the Directors do not envisage any change in the objective of the Company, as disclosed in the Background section of the annual report and audited financial statements, or any other events that would prevent the Company from continuing to operate over that financial period as the Company's assets are sufficiently liquid and the Company intends to continue to operate as an Investment Company. This financial period has been chosen, as a financial period longer than three years creates a level of future uncertainty for which a Viability Statement cannot, in the Directors' view, be made meaningfully. In making this assessment the Board has considered the following factors:

- ▶ the Company's principal risks as set out in the Financial Instruments and Risks section of the financial statements;
- ▶ the ongoing relevance of the Company's objective in the current environment; and
- ▶ the level of investor demand for the Funds offered by the Company.

The Board has also considered a number of financial metrics in its assessment, including:

- ▶ the level of ongoing charges, both current and historic;
- ▶ the level of capital activity, both current and historic;
- ▶ the level of income generated;
- ▶ the liquidity, tracking error and tracking difference of each Fund.

The Board has concluded that the Company would be able to meet its ongoing operating costs as they fall due as a consequence of:

- ▶ a diverse product offering that meets the needs of investors;
- ▶ overheads which comprise a small percentage of net assets.

Based on the results of their analysis, the Directors have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the financial period of their assessment.

Independent Auditors

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware. The Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Following the 2017 audit tender process, the Directors recommend the appointment of Deloitte as independent auditors, in accordance with section 382 of the Companies Act 2014 (as amended).

On behalf of the Board of Directors

Paul McNaughton
Director

Depository's report to the shareholders

We have enquired into the conduct of iShares VII plc ('the Company') for the financial year ended 31 July 2018, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial period in accordance with the provisions of the Company's Constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) In accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Company's Constitution and the UCITS Regulations ; and
- (ii) Otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

For and on behalf of

State Street Custodial Services (Ireland) Limited

Independent auditors' report to the members of iShares VII plc

Report on the audit of the financial statements

Opinion

In our opinion, iShares VII plc's financial statements:

- give a true and fair view of the Company's and Funds' (as listed on page 8) assets, liabilities and financial position as at 31 July 2018 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual report and audited financial statements (the "Annual Report"), which comprise:

- the Balance sheet as at 31 July 2018;
- the Income statement for the year then ended;
- the Statement of changes in net assets attributable to redeemable participating shareholders for the year then ended;
- the Schedule of investments for each of the Funds as at 31 July 2018; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company.

We have provided no non-audit services to the Company in the period from 1 August 2017 to 31 July 2018.

Independent auditors' report to the members of iShares VII plc (continued)

Our audit approach

Overview

Materiality

- ▶ Overall materiality: 50 basis points of Net Asset Value ("NAV") at 31 July 2018 for each of the Company's Funds.

Audit scope

- ▶ The Company is an open-ended investment Company with variable capital and engages BlackRock Asset Management Ireland Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.

Key audit matters

- ▶ Existence of financial assets at fair value through profit or loss.
- ▶ Valuation of financial assets at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p>Existence of financial assets at fair value through profit or loss</p> <p>See accounting policy a) of the Notes to the financial statements for further details.</p> <p>The financial assets at fair value through profit or loss included in the Balance Sheet of each Fund are held in the Fund's name at 31 July 2018.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We obtained independent confirmation from the Depositary of the investment portfolio held at 31 July 2018, agreeing the amounts held to the accounting records.</p>

Independent auditors' report to the members of iShares VII plc (continued)

Key audit matters (continued)

Key audit matter	How our audit addressed the key audit matter
Valuation of financial assets at fair value through profit or loss See accounting policy a) and note 4(e) of the Notes to the financial statements for further details. The financial assets at fair value through profit or loss included in the Balance Sheet of each Fund at 31 July 2018 are valued at fair value in line with Generally Accepted Accounting Principles in Ireland. This is considered a key audit matter as it represents the principal element of the financial statements.	We tested the investment portfolios by independently agreeing the valuation of investments to third party vendor sources.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 July 2018 there are 30 Funds in operation. The Company's Balance sheet, Income statement, and Statement of changes in net assets attributable to redeemable participating shareholders are an aggregation of the positions and results of the Funds.

The Directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company.

The Manager has also delegated certain responsibilities to BlackRock Advisors (UK) Limited (the 'Investment Manager') and to State Street Fund Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the Directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the 'Depository') to act as Depository of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

Overall materiality and how we determined it	50 basis points (2017: 50 basis points) of Net Asset Value ("NAV") at 31 July 2018 for each of the Company's Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2017: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Independent auditors' report to the members of iShares VII plc (continued)

Going concern

In accordance with ISAs (Ireland) we report as follows:

Reporting obligation	Outcome
We are required to report if we have anything material to add or draw attention to in respect of the directors' statement in the financial statements about whether the directors considered it appropriate to adopt the going concern basis of accounting in preparing the financial statements and the directors' identification of any material uncertainties to the Company's ability to continue as a going concern over a period of at least twelve months from the date of approval of the financial statements.	We have nothing material to add or to draw attention to. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual report and audited financial statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 (CA14) require us to also report certain opinions and matters as described below (required by ISAs (Ireland) unless otherwise stated).

Directors' Report

- ▶ In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 July 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements. (CA14)
- ▶ Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report. (CA14)

Corporate Governance Statement

- ▶ In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014. (CA14)
- ▶ Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement. (CA14)

Independent auditors' report to the members of iShares VII plc (continued)

Corporate Governance Statement (continued)

- ▶ In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 and regulation 6 of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 is contained in the Corporate Governance Statement. (CA14)

The directors' assessment of the prospects of the Company and of the principal risks that would threaten the solvency or liquidity of the Company

As a result of the directors' voluntary reporting on how they have applied the UK Corporate Governance Code (the "Code"), we are required to report to you if we have anything material to add or draw attention to regarding:

- ▶ The directors' confirmation on page 30 of the Annual Report that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity.
- ▶ The disclosures in the Annual Report that describe those risks and explain how they are being managed or mitigated.
- ▶ The directors' explanation on page 38 of the Annual Report as to how they have assessed the prospects of the Company, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We have nothing to report in respect of this responsibility.

Other Code Provisions

As a result of the directors' voluntary reporting on how they have applied the Code, we are required to report to you if, in our opinion:

- ▶ The statement given by the directors, on page 36, that they consider the Annual Report taken as a whole to be fair, balanced and understandable, and provides the information necessary for the members to assess the Company's and Funds' position and performance, business model and strategy is materially inconsistent with our knowledge of the Company obtained in the course of performing our audit.
- ▶ The section of the Annual Report on page 32 describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee.

We have nothing to report in respect of this responsibility.

Responsibilities for the financial statements and the audit

Responsibilities of the Directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent auditors' report to the members of iShares VII plc (continued)

Responsibilities for the financial statements and the audit (continued)

Responsibilities of the Directors for the financial statements (continued)

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:
https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- ▶ We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- ▶ In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- ▶ The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 6 January 2014 to audit the financial statements for the year ended 31 July 2014 and subsequent financial periods. The period of total uninterrupted engagement is 5 years, covering the years ended 31 July 2014 to 31 July 2018.

Other voluntary reporting

Going concern

The directors have requested that we review the statement on page 37 in relation to going concern as if the Company were a premium listed company on the London Stock Exchange. We have nothing to report having performed our review.

Independent auditors' report to the members of iShares VII plc (continued)

Other voluntary reporting (continued)

The directors' assessment of the prospects of the Company and of the principal risks that would threaten the solvency or liquidity of the Company

The directors have requested that we perform a review of the directors' statements on pages 30 and 38 that they have carried out a robust assessment of the principal risks facing the Company and in relation to the longer-term viability of the Company, as if the Company were a premium listed company on the London Stock Exchange. Our review was substantially less in scope than an audit and only consisted of making inquiries and considering the directors' process supporting their statements; checking that the statements are in alignment with the relevant provisions of the Code; and considering whether the statements are consistent with the knowledge and understanding of the Company and its environment obtained in the course of the audit. We have nothing to report having performed this review.

Other Code provisions

The directors have prepared a corporate governance statement and requested that we review it as though the Company were a premium listed company on the London Stock Exchange. We have nothing to report in respect of the requirement for the auditors of premium listed companies to report when the directors' statement relating to the Company's compliance with the Code does not properly disclose a departure from a relevant provision of the Code specified, under the Listing Rules, for review by the auditors.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 July 2018

1. COMPANY DETAILS

iShares VII public limited company is organised as an open-ended Investment Company with variable capital. The Company was incorporated in Ireland on 9 April 2009 with limited liability and segregated liability between its Funds and is organised under the laws of Ireland as a Public Limited Company ("PLC") pursuant to the Companies Act 2014 (as amended) and the UCITS Regulations and is regulated by the CBI.

The registered office of the Company is J.P. Morgan House, International Financial Services Centre, Dublin 1, Ireland.

2. BASIS OF PREPARATION

The financial statements have been prepared for the financial year ended 31 July 2018.

All amounts are rounded to nearest thousand, unless otherwise stated.

Statement of compliance

The financial statements are prepared in accordance with accounting standards generally accepted in Ireland including FRS 102, the financial reporting standard applicable in the UK and Republic of Ireland and Irish statute comprising the Companies Act 2014 (as amended) and the provisions of the UCITS Regulations. Accounting standards generally accepted in Ireland in preparing financial statements which present a true and fair view are issued by FRC. Due to the special nature of the Company's business, the Directors have adapted the arrangement and headings and sub-headings of the financial statements otherwise required by Schedule 3 to the Companies Act 2014 (as amended).

The Company has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting cash flow statements.

The information required by FRS 102 to be included in a statement of comprehensive income is contained in the income statement of each Fund.

Fair value measurement and recognition

On initial application of FRS 102, in accounting for its financial instruments a reporting entity is required to apply either a) the full provisions of section 11 "Basic Financial Instruments" and section 12 "Other Financial Instruments" of FRS 102, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of Sections 11 and 12 of FRS 102; or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and/or IAS 39 (as amended following the publication of IFRS 9) and only the disclosure requirements of Sections 11 and 12 of FRS 102. The Company has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102 as they relate to financial instruments.

Basis of measurement

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. The Company will continue as a going concern and the financial statements of all Funds have been prepared on a going concern basis.

All references to net assets throughout this document refer to net assets attributable to redeemable participating shareholders unless otherwise stated.

Functional and presentation currency

The presentation currency of the Company's financial statements is Euro. Foreign currency items included in the Funds' financial statements are measured in the Funds' functional currency which is shown for each Fund in the headings of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

2. BASIS OF PREPARATION (continued)

Functional and presentation currency (continued)

The presentation currency of the Funds' financial statements is the same as the functional currency.

The Company's balance sheet, income statement and the statement of changes in net assets attributable to redeemable participating shareholders are an aggregation of the positions and results of the Funds.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Management also makes estimates and assumptions concerning the future.

The resulting accounting estimates will, by definition, seldom equal the actual results. Actual results may differ from these estimates and these differences could be material. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities predominantly relate to the fair value of financial instruments, as discussed in the accounting policies.

3. ACCOUNTING POLICIES

The significant accounting policies adopted by the Company are:

a) Investments

Classification of investments

The Company classifies its investments as financial assets and financial liabilities at fair value through profit or loss. The category of financial assets and financial liabilities through profit or loss comprises financial instruments (equities, ETF's, rights, bonds, forward currency contracts, warrants and futures contracts), designated by the Investment Manager, at inception, as being at fair value through profit or loss. Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the documented investment strategy.

Recognition/derecognition of investments

Purchases and sales of investments are accounted for on the date the trade transaction takes place. Investments are derecognised when the rights to receive cashflows from the investments have expired or the risks and rewards of ownership have all been substantially transferred. Realised gains and losses on disposals are calculated using the average cost method and are reflected as net gains/(losses) on financial assets/liabilities at fair value through profit or loss in the income statement.

Initial measurement of investments

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities are presented in the income statement in the financial year in which they arise.

Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

i) Listed investments

As at financial year end, investments which are quoted, listed, traded or dealt on a market or exchange are based on quoted prices which, for the purpose of the financial statements is in line with the valuation methodology prescribed in the prospectus. Depending on the nature of the underlying security this could be either at the closing price, closing mid-market price or bid price on the relevant market.

ii) Exchange Traded Funds ("ETFs")

The fair value of any investment which is a unit of participation in an ETF shall be calculated on the relevant Fund's valuation date by reference to the unaudited NAV of such unit of participation. The referenced NAV will be as calculated by the administrator of the ETF, and in accordance with the requirements of the scheme which the investment is a unit of.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

3. ACCOUNTING POLICIES (continued)

a) Investments (continued)

iii) Financial derivative instruments

The Company's derivatives comprise futures contracts and forward currency contracts and are recognised initially at fair value. Transaction costs are expensed in the income statement. Subsequent to initial recognition they are measured at fair value with changes in fair value recognised in the income statement.

Where appropriate, gains and losses from certain financial derivative instruments are included in income or as net gains/(losses) on financial assets/liabilities at fair value through profit or loss in the income statement depending on whether they are used to protect or enhance income or capital.

For further details on the types of derivatives held by the Company at financial year end please see the Glossary.

iv) Prices calculated in consultation with the Manager

A number of securities were valued by the Administrator in consultation with the Manager in the absence of year end vendor prices.

The total value of securities valued using a price calculated by the Manager as at 31 July 2018 and 31 July 2017 is less than 1% of the NAV of the applicable Fund. Please refer to the *Valuation of financial instruments in note 4* for further details.

b) Income/expenses

i) Dividend income

Dividend income is recognised when the securities are declared ex-dividend. Dividend income is shown gross of any non-reclaimable withholding tax, which is disclosed separately in the income statement.

ii) Interest income/expense

Bank, cash equivalent and bond interest income and expense are accrued on a daily basis using the effective interest basis and are disclosed in the income statement as operating income and interest expense respectively.

iii) Amortisation/accretion of premium/discounts on purchase of interest-bearing investments

Premiums or discounts on the purchase of fixed and variable interest rate investments are amortised over the life of the investment on an effective interest basis.

iv) Securities lending income

Securities lending income is earned from lending securities owned by the Fund to a number of third-party borrowers. Securities lending income is accounted for on an accruals basis.

v) Management fee rebate

A management fee rebate is accrued on the portion of a Fund's assets invested in another iShares Fund based on the management fee rate charged by that Fund. The rebate is accounted for in the income statement.

The management fee rebate is calculated based on the amount invested by iShares MSCI EM Asia UCITS ETF in iShares MSCI China A UCITS ETF (the "underlying fund") multiplied by the management fee rate charged by the underlying fund.

c) Fees and expenses

Expenses are accounted for on an accruals basis with the exception of transaction charges relating to the acquisition and realisation of investments which are charged as incurred.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

3. ACCOUNTING POLICIES (continued)

d) Distributions

Distributions are accounted for as finance costs in the income statement.

The Company may declare distributions for each distributing Fund or share class, in respect of each financial period. Dividends will normally be declared monthly, quarterly, semi-annually or such other times as the Directors deem appropriate. With the exception of iShares \$ Treasury Bond 3-7yr UCITS ETF USD (Dist), iShares Core S&P 500 UCITS ETF GBP Hedged (Dist), iShares MSCI EMU UCITS ETF EUR (Dist), iShares MSCI EMU UCITS ETF GBP Hedged (Dist), all Funds or share classes are accumulating.

As of 31 July 2018 and 31 July 2017, all of the Funds have adopted UK Reporting Fund Status.

Any dividend amounts which have remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Company to investors and become the property of the relevant Fund.

e) Redeemable participating shares

Subscriptions and redemptions are accounted for on the day the trade transaction takes place.

Redeemable participating shares are redeemable at the option of the shareholders and are classified as financial liabilities.

f) Transaction costs

Transaction costs on purchases and sales of financial assets and financial liabilities are included in net gains/(losses) on financial assets at fair value through profit or loss in the income statement of the Fund. Separately identifiable transaction costs are disclosed in the transaction costs note in the additional information and regulatory disclosures section.

Custody transaction costs are not separately identifiable as they form part of TER of the Fund. The Manager is responsible for discharging all operational expenses of the Fund. See additional information and regulatory disclosures section for more details.

g) Foreign currency

Transactions and balances

Transactions in foreign currencies are translated into the functional currency of each Fund at the foreign currency exchange rate in effect at the date of the transaction.

Subscriptions and redemptions of shares in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction.

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at year end. The foreign exchange gain or loss based on the translation of the investments, as well as the gain or loss arising on the translation of other assets and liabilities, is included in net gains/(losses) on financial assets/liabilities at fair value through profit or loss in the income statement.

For aggregation purposes, all assets and liabilities for all Funds are translated into the presentation currency of the Company, at the financial year-end exchange rate. All income, expenses and capital transactions are translated at the average rate.

h) Receivables

Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition. They are subsequently measured at amortised cost using the effective interest basis less provision for impairment.

i) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost. The difference between proceeds and the amount payable is recognised over the period of the payable using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

3. ACCOUNTING POLICIES (continued)

j) Cash and cash equivalents

Cash in the balance sheet includes deposits held on call with banks.

Cash equivalents includes short-term liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are classified as liabilities in the balance sheet.

k) Margin cash

Cash balances held as margin with relevant brokers relating to investments in derivatives at the reporting date are included in current assets/liabilities in the balance sheet.

l) Negative yield on financial assets

Negative yield on financial assets relating to interest from a negative effective interest rate on a financial asset is accreted daily and is recognised in the income statement over the life of the underlying instrument.

m) Collateral

Cash collateral provided by the Company is identified on the balance sheet as pledged cash collateral and is not included as a component of cash and cash equivalents.

Cash collateral provided to the Company by counterparties is identified on the balance sheet as cash collateral payable. The Company may reinvest this cash collateral and the assets purchased are included in financial assets at fair value through profit or loss on the balance sheet.

For collateral received from counterparties other than cash, a disclosure of the value of collateral provided is made in the notes to the financial statements in the financial instrument and risk note.

n) Adjustment to align to the valuation methodology as set out in the prospectus

The accounting policy of the Company is to value its investments at the relevant fair value at the balance sheet date. Fair value is considered to be the relevant price methodology outlined in the prospectus as at 31 July 2018. Depending on the nature of the underlying security this could be either at the closing price, closing mid-market or bid price on the relevant market.

o) Equalisation on distributions

For tax and accounting purposes, the Manager implements income equalisation arrangements, to ensure that the level of income derived from investments is not affected by the issue, conversion or redemption of shares during the accounting period.

Equalisation income and/or expense amounts are included in note 7 in the notes to the financial statements of the Company.

p) Comparative financial year

Certain prior financial year figures have been reclassified to correspond to current financial year presentation.

q) Taxation

Current tax

Current tax is recognised in the income statement as the amount of income tax paid or payable in respect of the overseas taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

3. ACCOUNTING POLICIES (continued)

q) Taxation (continued)

Deferred tax

A provision for deferred tax payable is recognised in respect of material timing differences on the taxation of gains that have originated but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Timing differences are differences between the Company's overseas taxable profits and its results as stated in the financial statements that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

r) Segmental reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the Company's other components, whose operating results are reviewed regularly to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

It is considered that each Fund is an operating segment which is investing in line with its investment objective. The segment information provided to the Investment Manager is the same as that disclosed in the income statement and balance sheet for each Fund.

4. FINANCIAL INSTRUMENTS AND RISKS

Introduction and overview

The Company's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus for a more detailed discussion of the risks inherent in investing in the Company.

Risk management framework

The Directors of the Company review quarterly investment performance reports and receive semi-annual presentations from the Investment Manager covering the Company's performance and risk profile during the financial year. The Directors have delegated all the powers, duties and discretions exercisable in respect of the management of the Company and of the Funds to the Manager. The Manager has in turn delegated its investment management and advisory functions to the Investment Manager.

The Investment Manager is responsible for ensuring that the Company is managed within the terms of the Funds' investment guidelines and limits set out in the prospectus. The Board reserves to themselves the investment performance, product risk monitoring and oversight and the responsibility for the monitoring and oversight of regulatory and operational risk for the Company. The Manager has appointed a Risk Manager who has responsibility for the daily risk management process with assistance from key risk management personnel of the Investment Manager, including members of the BlackRock Risk and Quantitative Analysis Group ("RQA Group") which is a centralised independent risk management function. The RQA Group independently identifies measures and monitors investment risk. The RQA Group tracks the actual risk management practices being deployed across the different Funds. By breaking down the components of the process, the RQA Group has the ability to determine if the appropriate risk management processes are in place across the Funds. This captures the risk management tools employed, how the levels of risk are controlled, ensuring risk/return is considered in portfolio construction and reviewing outcomes.

The principal risk exposure of the Funds is set out as follows:

a) Market risk

Market risk arises mainly from uncertainty about future values of financial instruments influenced by other price, currency and interest rate movements. It represents the potential loss the Funds may suffer through holding market positions in the face of market movements. The Funds are exposed to market risk by virtue of their investments in equities, ETF's, rights, bonds, forward currency contracts, warrants and futures contracts.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**a) Market risk (continued)**

There is no assurance that each benchmark index will continue to be calculated on the basis described in the prospectus or that they will not be amended significantly. The past performance of each benchmark index is not necessarily a guide to future performance.

A key metric the RQA Group uses to measure market risk is Value at Risk ("VaR") which encompasses price, currency and interest rate risk. The RQA Group is a centralised group which performs an independent risk management function. The group independently identifies measures and monitors investment risk.

VaR is a statistical risk measure that estimates the potential portfolio loss from adverse market moves in an ordinary market environment. VaR analysis reflects the interdependencies between risk variables, unlike a traditional sensitivity analysis.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one day period the Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

It is noted that the use of the VaR methodology has limitations, namely assumptions that the use of historical market data as a basis for estimating future events does not encompass all possible scenarios, particularly those that are of an extreme nature and that the use of a specified confidence level (e.g. 99%) does not take into account losses that occur beyond this level. There is some probability that the loss could be greater than the VaR amounts. These limitations and the nature of the VaR measure mean that the Fund can neither guarantee that losses will not exceed the VaR amounts indicated, nor that losses in excess of the VaR amounts, will not occur more frequently.

The Funds' one day VaR as at 31 July 2018 and 31 July 2017 based on a 99% confidence level is outlined in the table below:

Fund	31 July 2018 %	31 July 2017 %

* Fund launched during the financial year ended 31 July 2018.

i) Market risk arising from foreign currency risk**Exposure to foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Funds may invest in securities, which as far as possible and practicable, consist of the component securities of the benchmark index of each Fund, and which may be denominated in currencies other than its reporting currency.

The Funds with the exception of the currency hedged Funds (as listed in the background section), in line with their benchmarks, are unhedged and are therefore exposed to foreign currency risk. Consequently, each Fund is exposed to the risk of currency fluctuations between the base currency of the benchmark index and the base currency of the constituent securities of the benchmark index.

In addition, certain Funds may have share classes which have different valuation currencies from the base currency of the Fund. Consequently, the investments of a share class may be acquired in currencies which are not the valuation currency of the share class. Currency hedged share classes use a currency hedging approach whereby the hedge is proportionately adjusted for net subscriptions and redemptions in the relevant currency hedged share class. An adjustment is made to the hedge to account for the price movements of the underlying securities held for the relevant currency hedged share class, however, the hedge will only be reset or adjusted on a monthly basis and as and when a pre-determined tolerance is triggered intra-month and not whenever there is market movement in the underlying securities. In the event that, the over-hedged or under-hedged position on any single underlying portfolio currency exposure of a currency hedged share class exceeds the pre-determined tolerance as at the close of a Business Day (for example, due to market movement), the hedge in respect of that underlying currency will be reset on the next Business Day (on which the relevant currency markets are open). Over-hedged positions shall not exceed 105% of the NAV of the relevant currency hedged share class and under-hedged positions shall not fall short of 95% of the portion of the NAV of the relevant currency hedged share class that is to be hedged against currency risk. As a result of this currency hedging approach the currency hedge share classes are considered to be immaterially exposed to foreign currency risk.

Currency hedged share classes, where offered in a Fund, aim to reduce the impact of exchange rate fluctuations between the underlying portfolio currency exposures of the Fund and the valuation currency of the currency hedged share class on returns of the relevant benchmark index to investors in that share class, through entering into foreign exchange contracts for currency hedging.

The realised or unrealised gains or losses relating to these forward currency contracts are allocated to the relevant share class. The details of such contracts are disclosed as hedged forwards in the Fund's schedule of investments.

The Funds may also invest in forward currency contracts and thus gain further exposure to foreign currency risk.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**a) Market risk (continued)****i) Market risk arising from foreign currency risk (continued)****Management of foreign currency risk**

To minimise this risk, the currency hedged Funds invest in forward currency contracts that as far as possible track the hedging methodology of the benchmark index. The benchmark indices of the currency hedged Funds are designed to represent a close approximation of the return that can be achieved by hedging the currency exposures of the index in the one month forward market at the end of each month.

Exchange rate exposures are managed where appropriate and in compliance with the prospectus utilising forward currency contracts. The details of the contracts in place at the financial year-end date are disclosed in the schedules of investments.

The Investment Manager will monitor the currency exposure and gain or loss arising from hedge positions of each currency hedged share class against the pre-determined tolerances daily and will determine when a currency hedge should be reset and the gain or loss arising from the currency forwards reinvested or settled, while taking into consideration the frequency and associated transaction and reinvestment costs of resetting the currency forwards.

ii) Market risk arising from other price risk**Exposure to other price risk**

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

The Funds are exposed to market risk arising by virtue of their investments in equities, ETF's, rights, bonds, forward currency contracts, warrants and futures contracts. The movements in the prices of these investments result in movements in the performance of the Funds. The investment concentrations within the portfolio are disclosed in the schedules of investments by investment type.

Management of other price risk

The Investment Manager manages the Funds' market risk on a daily basis in accordance with the Funds' investment objective.

The investment objective of the Funds is to provide investors with a total return, taking into account the capital and income returns, which reflect the total returns of the respective benchmark. The Fund's performance is correlated to its benchmark. The correlation of the Fund's performance against the benchmark is a metric monitored by key management personnel.

iii) Market risk arising from interest rate risk**Exposure to interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Funds are exposed to interest rate risk through their cash and cash equivalent holdings including margin cash held with brokers. The Funds are also exposed to interest rate risk through their investments in bonds, where the value of these securities may fluctuate as a result of a change in interest rates.

The Funds also have indirect exposure to interest rate risk through their investments into futures contracts, whereby the value of the underlying asset may fluctuate as a result of a change in interest rates.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**a) Market risk (continued)****iii) Market risk arising from interest rate risk (continued)****Management of interest rate risk**

Movements in the prices of these investments are derived from movements in market interest rates and issuer creditworthiness. Issuer creditworthiness and credit spreads are monitored by the Investment Manager regularly. The securities in which the Funds invest will generally have a minimum rating of "investment grade" (Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch) from a ratings agency as set out in the investment policy of the Funds.

b) Counterparty credit risk**Exposure to counterparty credit risk**

Counterparty credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Funds are exposed to counterparty credit risk from the parties with which they trade and will bear the risk of settlement default.

Management of counterparty credit risk

Counterparty credit risk is monitored and managed by BlackRock's RQA Counterparty & Concentration Risk Team. The team is headed by BlackRock's Chief Counterparty Credit Officer who reports to the Global Head of RQA. Credit authority resides with the Chief Counterparty Credit Officer and selected team members to whom specific credit authority has been delegated.

As such, counterparty approvals may be granted by the Chief Counterparty Credit Officer, or by identified RQA Credit Risk Officers who have been formally delegated authority by the Chief Counterparty Credit Officer.

The BlackRock RQA Counterparty & Concentration Risk Team completes a formal review of each new counterparty, monitors and reviews all approved counterparties on an ongoing basis and maintains an active oversight of counterparty exposures and the collateral management process.

There were no past due or impaired balances in relation to transactions with counterparties as at 31 July 2018 or 31 July 2017.

i) Financial derivative instruments

The Funds' holdings in exchange traded futures contracts and over-the-counter ("OTC") financial derivative instruments exposes the Funds to counterparty credit risk.

Management of counterparty credit risk related to financial derivative instruments**Exchange traded financial derivative instruments**

The exposure to futures contracts is limited by trading the contracts through a clearing house. The Funds' exposure to counterparty credit risk on contracts in which it currently has a gain position is reduced by such gains received in cash from the counterparty under the daily mark-to-market mechanism on exchange traded futures contracts (variation margin). The Funds' exposure to counterparty credit risk on contracts in which it currently has a loss position is equal to the amount of margin posted to the counterparty which has not been transferred to the exchange under the daily mark-to-market mechanism. The counterparties for futures contracts are Credit Suisse AG and Morgan Stanley & Co International Plc. The lowest long term credit rating of any of the counterparties as at 31 July 2018 is A (31 July 2017: A) (Standard & Poor's rating).

Margin is paid or received on futures contracts to cover any exposure by the counterparty or the Funds to each other. "Margin cash account" on the balance sheet consists of margin receivable from or payable to the Fund's clearing brokers and the futures contracts counterparties.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**b) Counterparty credit risk (continued)****i) Financial derivative instruments (continued)****OTC financial derivative instruments**

The Funds' holdings in OTC financial derivative instruments expose the Funds to counterparty credit risk.

Counterparty credit risk in relation to OTC financial derivative instruments arises from the failure of the counterparty to perform according to the terms of the contract. The Funds exposure to counterparty credit risk is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from the Funds.

All OTC derivative transactions are entered into by the Funds under an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC derivative transactions entered into by the parties.

The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC derivative transactions entered into by the Funds under the ISDA Master Agreement. All non-cash collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The carrying value of financial assets together with cash held with counterparties best represents the Fund's gross maximum exposure to counterparty credit risk at the reporting date, before including the effect of ISDA Master Agreements and close-out netting, which reduces the overall counterparty credit risk exposure. Cash held as security by the counterparty to derivative contracts is subject to the credit risk of the counterparty.

The Funds' maximum exposure to counterparty credit risk from holding forward currency contracts will be equal to the notional amount of the currency and any net unrealised gains as disclosed in the schedules of investments.

Management of counterparty credit risk related to OTC financial derivative instruments

Forward currency contracts do not require variation margins and thus the counterparty credit risk is monitored through the BlackRock RQA Counterparty & Concentration Risk Team who monitor the credit-worthiness of the counterparty. The counterparties for forward currency contracts are disclosed in the relevant schedules of investments.

The lowest credit rating of any one counterparty is AA- (31 July 2017: A-) (Standard & Poor's rating).

ii) Depositary

The Funds' Depositary is State Street Custodial Services (Ireland) Limited (the "Depositary"). The majority of the investments are held by the Depositary at financial year end. Investments are segregated from the assets of the Depositary, with ownership rights remaining with the Funds. Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to its investments held by the Depositary to be delayed or limited. The maximum exposure to this risk is the amount of long investments disclosed in the schedules of investments.

The Depositary has appointed State Street Bank and Trust Company (the "Sub-Custodian") as its global Sub-Custodian. Substantially all of the cash of the Company is held with the Sub-Custodian.

The Funds' cash balances are held by the Sub-Custodian in its account together with its own cash balances and with those cash balances that are held on behalf of other clients. The Funds' cash balances are separately identifiable within the records of the Sub-Custodian.

In respect of the cash held by the Sub-Custodian or other depositaries it appoints, the Funds will be exposed to counterparty credit risk of the Sub-Custodian or those depositaries. In the event of the insolvency or bankruptcy of the Sub-Custodian or other depositaries, the Funds will be treated as a general creditor of the Sub-Custodian or the depositaries.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**b) Counterparty credit risk (continued)****ii) Depositary (continued)****Management of counterparty credit risk related to the Depositary**

To mitigate the Funds' exposure to the Depositary, the Investment Manager employs specific procedures to ensure that the Depositary is a reputable institution and that the counterparty credit risk is acceptable to the Funds. The Funds only transacts with Depositary's that are regulated entities subject to prudential supervision, or with "high credit ratings" assigned by international credit rating agencies.

The long term credit rating of the parent company of the Depositary and Sub-Custodian, State Street Corporation, as at 31 July 2018 is A (31 July 2017: A) (Standard & Poor's rating).

In order to further mitigate the Fund's counterparty credit risk exposure to the Sub-Custodian or depositary banks, the Funds may enter into additional arrangements such as the placing of residual cash in a money market fund for example Institutional Cash Series Plc ("ICS") shown as a cash equivalent on the balance sheet.

ICS is a BlackRock umbrella fund and an open-ended Investment Company with variable capital incorporated in Ireland and having segregated liability between its funds. ICS is authorised as a UCITS.

iii) Counterparties

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Counterparty credit risk arising on transactions with brokers relates to transactions awaiting settlement. Risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

Management of counterparty credit risk related to counterparties

RQA monitors the credit rating and financial position of the brokers used to further mitigate this risk.

iv) Securities lending

The Funds that engage in securities lending activities expose such Funds to counterparty credit risk. The maximum exposure to each Fund is equal to the value of the securities loaned. Securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty.

Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depositary or the Lending Agent.

The value of securities on loan at the financial year end and the value of collateral held at the financial year end on behalf of the Funds is shown below:

Fund	Currency	31 July 2018		31 July 2017	
		Value of Securities on loan '000	Value of Collateral received '000	Value of Securities on loan '000	Value of Collateral received '000

Management of counterparty credit risk related to securities lending

To mitigate this risk, the Funds which undertake securities lending transactions receive either cash or securities as collateral equal to a certain percentage in excess of the fair value of the securities loaned.

The Investment Manager monitors the fair value of the securities loaned and additional collateral is obtained, if necessary. As at the 31 July 2018 and 31 July 2017, all non-cash collateral received consists of securities admitted to or dealt on a regulated market.

The Funds also benefit from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc. bears the cost of indemnification against borrower default.

c) Issuer credit risk relating to debt securities

Issuer credit risk is the default risk of one of the issuers of any securities held by the Funds. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating.

Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated. A number of the Funds invest into sovereign and corporate debt. This exposes the Funds to the risk that the issuer of the bonds may default on interest or principal payments.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**c) Issuer credit risk relating to debt securities (continued)****Management of issuer credit risk related to debt securities**

To manage this risk, the Investment Manager invests in a wide range of debt securities, subject to the investment objectives of each Fund and monitors the credit ratings of the investments as disclosed in the schedules of investments. The ratings of the debt securities are continually monitored by the BlackRock Portfolio Management Group ("PMG").

The following tables detail the credit rating profile of the debt securities held by the Funds as at 31 July 2018 and 31 July 2017:

31 July 2018	Currency	Investment grade %	Non-investment grade %	Not rated %	Total %

d) Liquidity risk**Exposure to liquidity risk**

Liquidity risk is the risk that the Funds will encounter difficulties in meeting their obligations associated with financial liabilities.

Liquidity risk to the Funds arises from the redemption requests of investors and the liquidity of the underlying investments the Funds are invested in. The Funds' shareholders may redeem their shares on the close of any daily dealing deadline for cash equal to a proportionate share of the Funds' NAV. The Funds are therefore potentially exposed to the liquidity risk of meeting the shareholders' redemptions and may need to sell assets at prevailing market prices to meet liquidity demands. It is also exposed to the liquidity risk of daily margin calls on derivatives.

All derivative and non-derivative financial liabilities of the Funds held at the financial years ended 31 July 2018 and 31 July 2017 based on contractual maturities, fall due within one month, with the exception of those disclosed in the tables below:

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**d) Liquidity risk (continued)****Exposure to liquidity risk (continued)****Management of liquidity risk**

Liquidity risk is minimised by holding sufficient liquid investments which can be readily realised to meet liquidity demands.

To manage this risk, if redemption requests on any dealing day represent 10% or more of the shares in issue in respect of any Fund, the Manager may, in its discretion, refuse to redeem any shares representing in excess of 10% of the NAV of the Fund (at any time including after the cut-off time on the dealing day).

Any request for redemptions on such dealing day shall be reduced rateably and the redemption requests shall be treated as if they were received on each subsequent dealing day until all shares to which the original request related have been redeemed. In any event settlement for redemptions will normally be made within fourteen days of the dealing day.

The Fund's liquidity risk is managed on a daily basis by the Investment Manager in accordance with established policies and procedures in place. The portfolio managers review daily forward looking cash reports which project cash obligations. These reports allow them to manage their cash obligations.

The Funds benefit from the ETF creation and redemption process which, through the use of Authorised Participants, benefit from economies of scale and access to market participants with a visible market presence and a driver of large trading volumes. Investors and the Funds benefit from the ETF creation and redemption process, which allows an investor, through Authorised Participants, to create and redeem a large number of shares, therefore giving them access to significant market depth. This helps to mitigate liquidity risk and investor concentration risks for the Funds and mitigates investor concentration risks given that the Authorised Participants either receive the assets directly from the Fund on redemption, or for the minority of Funds a fee is charged to cover trading costs.

e) Valuation of financial instruments

The Funds classify financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy has the following categories:

Level 1 - Quoted prices for identical instruments in active markets

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm's length basis. The Fund does not adjust the quoted price for these instruments.

Level 2 - Valuation techniques using observable inputs

This category includes instruments valued using: quoted prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Valuation techniques used for non-standardised financial instruments such as OTC derivatives, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity determined inputs.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

4. FINANCIAL INSTRUMENTS AND RISKS (continued)**e) Valuation of financial instruments (continued)****Level 3 - Valuation techniques using significant unobservable inputs**

This category includes all instruments where the valuation techniques used include inputs not based on market data and these inputs could have a significant impact on the instrument's valuation.

This category also includes instruments that are valued based on quoted prices for similar instruments where significant entity determined adjustments or assumptions are required to reflect differences between the instruments and instruments for which there is no active market.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes 'observable' inputs requires significant judgement by the investment Manager. The Investment Manager considers observable inputs to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

There were no level 3 securities held on the Funds with a fair value greater than 1% of the relevant Fund's NAV at the financial year ended 31 July 2018 or 31 July 2017.

The tables below and overleaf are an analysis of the Funds' financial assets and financial liabilities measured at fair value at 31 July 2018.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

6. OPERATING EXPENSES

The Company employs an “all in one” fee structure for its Funds, with each Fund paying all of its fees, operating costs and expenses (and its due proportion of any costs and expenses allocated to it) as a single flat fee (the TER). Where a Fund has multiple Share Classes, any fees, operating costs and expenses which are attributable to a particular Share Class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that Share Class. The TER is calculated in accordance with the Committee of European Securities Regulators (“CESR”) guidelines on the methodology for calculation of the ongoing charges figure in the Key Investor Information Document (“KIID”) or the product page of the website at www.ishares.com.

The Manager is responsible for discharging all operational expenses, including but not limited to fees and expenses of the Directors, Investment Manager, Depositary, Administrator, Transfer Agent and Registrar from the amounts received by the Manager from the TER. Such operational expenses include regulatory and audit fees but exclude transaction costs and extraordinary legal costs.

In the event a Fund's costs and expenses in connection with the operation of the Fund exceed the stated TER, the Manager will discharge any excess amount out of its own assets.

Management fees (inclusive of investment management fees):

The Manager is entitled to an annual fee at rates not exceeding those set out on the following table. These rates are the maximum fee rates as at 31 July 2018:

Fund/Share Class*	TER(%) Currency hedged fund/share classes	TER (%) Unhedged fund/share classes
iShares \$ Treasury Bond 1-3yr UCITS ETF USD (Acc) B	-	0.20

iShares MSCI Korea UCITS ETF USD (Acc)	-	0.65

* Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

** This charge can be up to 1.00%. Any increase in this charge will be subject to prior shareholder approval.

***The TER of this Fund was amended during the financial year. The TER % in the table above is the maximum fee rate at 31 July 2018. The annualised TER % for the financial year is 0.30% for the (Acc) share class and 0.28% for the (Dist) share class.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

6. OPERATING EXPENSES (continued)**Management fees (inclusive of investment management fees) (continued):**

Fund/Share Class*	TER(%) Currency hedged fund/share classes	TER (%) Unhedged fund/share classes

* Where a Fund has multiple share classes, any fees, operating costs and expenses which are attributable to a particular share class (rather than the entire Fund) will be deducted from the assets notionally allocated by the Fund to that share class.

** As this Fund launched during the financial year, the fees, operating costs and expenses used to calculate the TER have been annualised.

Whilst it is anticipated that the TER borne by a Fund or share class shall not exceed the amounts set out above during the life of the Fund or share class (respectively) such amounts may need to be increased. Any such increase will be subject to the prior Shareholder approval of the relevant Fund or share class evidenced either by a majority vote at a meeting of shareholders or by a written resolution of all of the shareholders.

As disclosed, no commissions, discounts, brokerages or other special terms have been granted or are payable by the Company in connection with the issue or sale of any capital of the Company.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

7. DISTRIBUTIONS TO REDEEMABLE PARTICIPATING SHAREHOLDERS

The Company may declare and pay dividends on any distributing class of shares in the Company. In accordance with the prospectus, any dividend which has remained unclaimed for twelve years from the date of its declaration shall be forfeited and cease to remain owing by the Company to investors and become the property of the relevant Fund.

Distributions declared during the financial year were as follows:

	Company Total	iShares \$ Treasury Bond 3-7yr UCITS ETF	iShares Core S&P 500 UCITS ETF	iShares MSCI EMU UCITS ETF
	31 Jul 2018	31 Jul 2018	31 Jul 2018	31 Jul 2018

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

8. TAXATION (continued)

Irish tax

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a 'chargeable event'. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed annual declarations; and
- c) Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners (such as CREST) will not constitute a chargeable event. It is the current intention of the Directors that all the shares in the Company will be held in CREST or another recognised clearing system.

Overseas tax

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

For financial reporting purposes, and in accordance with FRS 102, the Company must recognise a provision for deferred tax payable arising from material timing differences between the taxation of unrealised gains in the financial statements and actual realisable taxable profits.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 July 2018

9. SHARE CAPITAL

The issued and fully paid redeemable participating share capital is at all times equal to the NAV of the Company. Redeemable participating shares are redeemable at the shareholders' option and are classified as financial liabilities.

Redeemable Participating Shares - issued and fully paid

9. SHARE CAPITAL (continued)

Authorised

The authorised share capital of the Company was €2.00 divided into 2 Subscriber Shares of a par value of €1.00 each and 1,000,000,000,000 Shares of no par value ("NPV").

Subscriber shares

The 2 subscriber shares are currently in issue and are held by the Manager and nominees of the Manager at 31 July 2018 and 31 July 2017. They do not form part of the NAV of the Company. They are thus disclosed in the financial statements by way of this note only. In the opinion of the Directors this disclosure reflects the nature of the Company's investment business.

Voting Rights

The holders of the subscriber shares and redeemable participating shares shall, on a poll, be entitled to one vote per share.

Net asset value attributable to redeemable participating shareholders at the end of the financial year	1,063,421	100.00

[†] Cash holdings of €9,432,571 are held with State Street Bank and Trust Company. €460,331 is held as security for futures contracts with Credit Suisse AG.

[^] These securities are partially or fully transferred as securities lent.

* These securities were valued in consultation with the Investment Manager. These securities were delisted, suspended or priced at zero at the financial year end.

Equities are primarily classified by country of incorporation of the entity in which the Fund holds shares.

Underlying exposure has been calculated according to the guidelines issued by the ESMA and represents the market value of an equivalent position in the assets underlying each financial derivative instrument.

Net asset value attributable to redeemable participating shareholders at the end of the financial year	1,674,503	100.00

[†] Cash holdings of €11,772,783 are held with State Street Bank and Trust Company. €778,783 is held as security for futures contracts with Credit Suisse AG.

[^] These securities are partially or fully transferred as securities lent.

^{*} The counterparty for forward currency contracts is State Street Bank and Trust Company. All forward currency contracts relate to the GBP Hedged (Dist) Class.

Equities are primarily classified by country of incorporation of the entity in which the Fund holds shares.

Underlying exposure has been calculated according to the guidelines issued by the ESMA and represents the market value of an equivalent position in the assets underlying each financial derivative instrument.

Net asset value attributable to redeemable participating shareholders at the end of the financial year			146,029	100.00	

[†] Cash holdings of £383,242 are held with State Street Bank and Trust Company. £19,096 is held as security for futures contracts with Credit Suisse AG.

^{*} These securities are partially or fully transferred as securities lent.

^{*} These securities were valued in consultation with the Investment Manager. These securities were delisted, suspended or priced at zero at the financial year end.

Equities are primarily classified by country of incorporation of the entity in which the Fund holds shares.

Underlying exposure has been calculated according to the guidelines issued by the ESMA and represents the market value of an equivalent position in the assets underlying each financial derivative instrument.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

Schedule of Material Purchases and Sales (unaudited) (continued)

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

Schedule of Material Purchases and Sales (unaudited) (continued)

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

The CBI requires a Schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial year is available, upon request, at no cost from the Administrator.

* Where a Fund's launch date is within a performance year, figures are shown from the launch date to the end of the relevant financial year.

The Fund return figures are the aggregated net monthly returns and are based on the average published pricing NAV for the financial year under review. Due to accounting policy requirements under Irish accounting standards which apply to the financial statements, there may be slight differences between the NAV per share as recorded in the financial statements and the published pricing NAV per share. The returns are net of management fees.

Past performance may not necessarily be repeated and future performance may vary.

Disclosed in the table above are the performance returns for the primary share class for each Fund, which has been selected as a representative share class. Performance returns for other share classes are available at www.ishares.com.

Other regulatory disclosures (unaudited)

PEA Eligibility (Plan d'Epargne en Actions)

A PEA is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. PEA eligible Funds must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the EU or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

Throughout the financial year, 1 August 2017 to 31 July 2018, the Funds listed below invested more than 75% of their total net assets in PEA eligible securities.

As at 31 July 2018, the below Funds had the following percentage of their total net assets invested in eligible PEA securities:

Fund	% Invested in European PEA eligible shares
iShares Core EURO STOXX 50 UCITS ETF	87.50%
iShares MSCI EMU UCITS ETF	87.40%

Transactions with connected parties

In accordance with the requirements of the CBI, the Manager shall ensure that any transactions carried out between the Funds and the Manager or Depositary to the Funds, the delegates or sub-delegates of the Manager or Depositary (excluding any non-group company sub-custodians appointed by a Depositary) and any associated or group company of the Manager, Depositary, delegate or sub-delegate ("Connected Parties") must be conducted at arm's length and in the best interests of the shareholders.

The Board of Directors of the Manager are satisfied that there are arrangements in place, as evidenced by written procedures, to ensure that the obligations set out above are applied to all transactions with Connected Parties and that transactions with Connected Parties entered into during the financial year complied with this obligation.

Global exposure

In accordance with UCITS regulations and the requirements of CBI, the Manager is required to employ a risk management process which enables it to accurately monitor and manage the global exposure of the Funds to FDI.

The Investment Manager uses the methodology known as the "Commitment Approach" in order to measure the global exposure of the Funds and manage the potential loss to them due to market risk.

The commitment approach is a methodology that aggregates the underlying market or notional value of FDI to determine the global exposure of the Fund.

In accordance with the UCITS Regulations, global exposure for a Fund utilising the commitment approach must not exceed 100% of the Fund's NAV.

The exposures to FDI at the financial year end are marked on the relevant Fund's schedule of investments.

Leverage

The use of derivatives may expose Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure.

A relatively small market movement may have a potentially larger impact on derivatives than on non-derivative instruments. Leveraged derivative positions can therefore increase Fund volatility.

Other regulatory disclosures (unaudited) (continued)

Transaction costs

In order to achieve its investment objective, a Fund will incur transaction costs in relation to trading activity on its portfolio.

Disclosed in the table below are separately identifiable transaction costs incurred by the Company for the financial year ended 31 July 2018. These include all brokers' commission, settlement fees, stamp duties and broker fees charges on equities, exchange traded futures contracts and some fixed income investments.

	Financial year ended 31 July 2018 '000

Not all transaction costs are separately identifiable. For some fixed income investments, transaction costs will be included in the purchase and sales price of the investment and are not separately disclosed. The portfolio transaction costs are not included in the TER.

Report on remuneration (unaudited)

The below disclosures are made in respect of the remuneration policies of the BlackRock group ("BlackRock"), as they apply to BlackRock Asset Management Ireland Limited (the "Manager"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the EEA entities within the BlackRock group authorised as a manager of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive.

The Manager has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for BlackRock, Inc. and all of its subsidiaries, including the Manager); and (b) the Manager's Board of Directors (the "Manager's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

The MDCC's purposes include:

- ▶ providing oversight of:
 - BlackRock's executive compensation programmes;
 - BlackRock's employee benefit plans; and
 - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- ▶ reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- ▶ reviewing, assessing and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "BlackRock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- ▶ in accordance with applicable UK and European regulations and guidance, to act as the Remuneration Committee for BlackRock's EMEA regulated entities.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange ("NYSE"), which requires each meet a "non-employee director" standard.

The MDCC held 10 meetings during 2017. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Manager's Board

The Manager's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

The Manager's Board (through independent review by the relevant control functions) remains satisfied with the implementation of the UCITS Remuneration Policy as it applies to the Manager and its Identified Staff.

Report on remuneration (unaudited) (continued)

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for remuneration decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of BlackRock's financial performance (e.g., net inflows of AUM and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of preincentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the Board of Directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Manager.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well-defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- ▶ appropriately balance BlackRock's financial results between shareholders and employees;
- ▶ attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- ▶ align the interests of senior employees with those of shareholders by awarding BlackRock Inc.'s stock as a significant part of both annual and long-term incentive awards;
- ▶ control fixed costs by ensuring that compensation expense varies with profitability;
- ▶ link a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance;
- ▶ discourage excessive risk-taking; and
- ▶ ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Report on remuneration (unaudited) (continued)

Link between pay and performance (continued)

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Managers use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- ▶ the performance of the Manager, the funds managed by the Manager and/or the relevant functional department;
- ▶ factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business;
- ▶ the management of risk within the risk profiles appropriate for BlackRock's clients;
- ▶ strategic business needs, including intentions regarding retention;
- ▶ market intelligence; and
- ▶ criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc. stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc.'s share price over the vesting period. As total annual compensation increases, a greater portion is deferred into stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests into three equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards from the "Partner Plan" and "Targeted Equity Award Plan" are made to select senior leaders to provide greater linkage with future business results. The long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin¹ and Organic Revenue Growth². Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

¹ As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

² Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in dollars).

Report on remuneration (unaudited) (continued)

Link between pay and performance (continued)

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have “skin in the game” through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Manager, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Manager or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- ▶ organisational changes;
- ▶ new business initiatives;
- ▶ changes in significant influence function lists;
- ▶ changes in role responsibilities; and
- ▶ revised regulatory direction.

Quantitative Remuneration Disclosure

The Manager is required under UCITS to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Fund is included in the aggregate figures disclosed.

Members of staff and senior management of the Manager typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Manager and across the broader BlackRock group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager according to an objective apportionment methodology which acknowledges the multiple-service nature of the Manager. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Manager to its staff which has been attributed to the Fund in respect of the Manager's financial year ending 31 December 2017 is €4.3m. This figure is comprised of fixed remuneration of €1.7m and variable remuneration of €2.6m. There were a total of 52 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager, which has been attributed to the Fund in respect of the Manager's financial year ending 31 December 2017, to its senior management was €0.3m and to other members of its staff whose actions have a material impact on the risk profile of the Fund was €4.0m.

Supplementary information (unaudited)

Efficient portfolio management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CBI, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of the Directive. These techniques and instruments may include investments in FDI such as interest rate and bond futures (which may be used to manage interest rate risk), index futures (which may be used to manage cash flows on a short term basis), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps (which may be used to manage currency risk) and investments in money market instruments and/or money market collective investment schemes. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management subject to the conditions and limits set out in the Central Bank UCITS Regulations and in accordance with the requirements of the Central Bank.

Securities Lending

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV as at 31 July 2018. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.

Collateral (continued)

The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions cannot be sold, re-invested or pledged.

The following table provides an analysis of the type, quality and maturity tenor of non-cash collateral received and posted by the Funds by way of title transfer collateral arrangement in respect of securities lending transactions as at 31 July 2018.

No collateral had a maturity tenor of less than 8 days.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 31 July 2018, all non-cash collateral received by the Funds in respect of securities lending transactions is held by the Funds' Depositary (or through its delegates).

Supplementary information (unaudited) (continued)

Collateral (continued)

The following table lists the ten largest issuers by value of non-cash collateral received by the Funds by way of title transfer collateral arrangement across securities lending transactions as at 31 July 2018.

Glossary* (unaudited)

Futures contracts

A futures contract is a contract, traded on an exchange, to buy or sell a certain underlying instrument at a certain date in the future, at a specified price. They are entered into for the purposes of gaining exposure to or hedging against changes in interest rates, changes in the value of securities or foreign currencies. Depending on the terms of a particular contract, futures can be settled either through physical delivery of the underlying instrument or by payment of a cash amount on the settlement date. Upon entering into the contract the Fund is required to deposit initial margin with the broker in the form of cash or securities in an amount that varies depending on the contracts size and risk profile. During the life of the contract the Fund agrees to pay or receive an amount of cash equal to the daily fluctuation in the value of the contract known as variation margin. When the contract is closed, the Fund records a realised gain or loss equal to the difference between the value of the contract at the time it was open and the value at the time it was closed.

Forward currency contracts

A forward currency contract is an agreement between two parties to buy or sell a currency at a set exchange rate at a certain date in the future. The Fund enters into forward currency contracts as an economic hedge against transactions or financial instruments and to obtain exposure to foreign currencies.

The unrealised gain or loss on open forward currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract as at the financial year end date.

Realised gains or losses are recognised on the maturity of a contract as the difference between the rate that the contract was entered into and the closing spot rate at the settlement date of the contract.

Redeemable participating shares

The redeemable participating shares can be redeemed for cash equal to a proportionate share of the NAV calculated in accordance with the Company's prospectus. The redeemable participating share is valued at the redemption amount that is payable at the balance sheet date if the shareholder exercised their right to put the shares back to the Company.

The fair value of the financial liabilities for the redeemable participating shares is the redemption amount per share, calculated as the NAV per share less any associated duties and charges and any redemption fee which is payable on the shares redeemed. Any potential duties and charges are at the discretion of the Board of Directors.

Any distributions on these shares are recognised in the income statement as finance costs.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability.

An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, it is measured at its fair value through profit or loss, plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Equalisation on Distributions

Equalisation arrangements are applied in the case of shares in the Company. These arrangements are intended to ensure that the income distribution per share is not affected by changes in the number of shares in issue during the financial year.

To ensure that each shareholder receives the same rate of distribution per share, the buying price of each share contains an amount called equalisation. This is equivalent to the net of distributable income less expenses, accrued in the Company at the time of purchase/sale.

As part of the distribution payment, the average amount of this equalisation is returned to shareholders who subscribed to or redeemed from the Company during the financial year. The equalisation element of the distribution is treated as a repayment of capital.

* The Glossary is an integral part of the notes to the financial statements.

Regulatory Information

BlackRock Advisors (UK) Limited, which is authorised and regulated by the FCA, registered office at 12 Throgmorton Avenue, London, EC2N 2DL, England, Tel +44 (0)20 7743 3000. For your protection, calls are usually recorded. iShares plc, iShares II plc, iShares III plc, iShares IV plc, iShares V plc, iShares VI plc and iShares VII plc (together “the Companies”) are open-ended investment companies with variable capital having segregated liability between their funds organised under the laws of Ireland and authorised by the CBI.

Further information about the Fund and the Share Class, such as details of the key underlying investments of the Share Class and share prices, is available on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser. The indicative intra-day NAV of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>. A UCITS ETF's units / shares that have been acquired on the secondary market cannot usually be sold directly back to the UCITS ETF itself. Investors who are not Authorised Participants must buy and sell shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees and additional taxes in doing so. In addition, as the market price at which the Shares are traded on the secondary market may differ from the NAV per Share, investors may pay more than the then current NAV per Share when buying shares and may receive less than the current NAV per Share when selling them.

For investors in the UK

Most of the protections provided by the UK regulatory system do not apply to the operation of the Companies, and compensation will not be available under the UK Financial Services Compensation Scheme on its default. The Companies are recognised schemes for the purposes of the Financial Services and Markets Act 2000. Any decision to invest must be based solely on the information contained in the Company's prospectus, KIID and the latest annual report and audited financial statements. Investors should read the fund specific risks in the KIID and the Company's prospectus.

Restricted Investors

This document is not, and under no circumstances is to be construed as an advertisement or any other step in furtherance of a public offering of shares in the United States or Canada. This document is not aimed at persons who are resident in the United States, Canada or any province or territory thereof, where the companies/securities are not authorised or registered for distribution and where no prospectus has been filed with any securities commission or regulatory authority. The companies/securities may not be acquired or owned by, or acquired with the assets of, an Employee Retirement Income Security Act Plan.

Risk Warnings

Investment in the products mentioned in this document may not be suitable for all investors. Past performance is not a reliable indicator of current or future results and should not be the sole factor of consideration when selecting a product or strategy. Capital at risk. The value of investments and the income from them can fall as well as rise and are not guaranteed. You may not get back the amount originally invested. The value of investments involving exposure to foreign currencies can be affected by exchange rate movements. We remind you that the levels and bases of, and reliefs from, taxation can change.

BlackRock has not considered the suitability of this investment against your individual needs and risk tolerance. The data displayed provides summary information. Investment should be made on the basis of the relevant prospectus which is available from the manager.

In respect of the products mentioned this document is intended for information purposes only and does not constitute investment advice or an offer to sell or a solicitation of an offer to buy the securities described within. This document may not be distributed without authorisation from BlackRock Advisors (UK) Limited.
