MANAGER'S REPORT

For the year ended 31 December 2017

Principal Activities and Future Developments

Northern Trust UCITS FGR Fund (the "FGR") was established on 26 November 2014 as an Undertaking for Collective Investments in Transferable Securities (UCITS).

The FGR is structured as an open-ended umbrella fund with multiple sub-funds. As at 31 December 2017, the FGR comprises of ten sub-funds: Northern Trust North America Equity Index UCITS FGR Fund; Northern Trust Europe Equity Index UCITS FGR Fund; Northern Trust Developed Real Estate Index UCITS FGR Fund; Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund; Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund; Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund; Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund; Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund; and Northern Trust Developed Real Estate ESG Index Fund (the "Sub-Funds").

The investment objectives of Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund are to closely match the risks and returns of the MSCI North America Index, MSCI Europe Index, FTSE EPRA/NAREIT Developed Index, MSCI Emerging Markets Custom ESG Index, MSCI World Custom ESG Minimum Volatility (EUR) Index and Northern Trust GRESB Developed Real Estate ESG Index respectively, with net dividends reinvested.

The investment objectives of Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund (the "Feeder Funds") are to invest at least 85% of their assets in Northern Trust World Custom ESG Equity Index Fund, Northern Trust Europe Custom ESG Equity Index Fund, Northern Trust North America Custom ESG Equity Index Fund and Northern Trust Europe Fundamental Index Fund (the "Master Funds") respectively.

The investment objectives of Northern Trust World Custom ESG Equity Index Fund, Northern Trust Europe Custom ESG Equity Index Fund, Northern Trust North America Custom ESG Equity Index Fund and Northern Trust Europe Fundamental Index Fund are to closely match the risks and returns of the MSCI World Custom ESG Index, MSCI Europe Custom ESG Index, MSCI North America Custom ESG Index and FTSE RAFI Europe Index - QSR respectively, with net dividends reinvested.

A review of the performance of each Sub-Fund for the year/period is included in its Investment Review.

The Sub-Funds, except Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund, will continue to invest in line with their investment objectives and investment policies as set out in the Prospectus. As explained in *Events since the Year End* below, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund will terminate on 30 April 2018.

Financial Situation, Results and Distributions

Financial Situation

The net assets of the Sub-Funds as at the year/period end were as follows.

Northern Trust North America Equity Index UCITS FGR Fund	US\$1,008,733,829
Northern Trust Europe Equity Index UCITS FGR Fund	€1,532,053,606
Northern Trust Developed Real Estate Index UCITS FGR Fund	US\$1,603,004,442
Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund	€691,399,807
Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund	€1,442,595,351
Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund	€336,380,410
Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund	€503,055,014
Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund	€633,790,531
Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund	€13,227,629
Northern Trust Developed Real Estate ESG Index Fund	€228,158,520

Further details of the financial situation of the Sub-Funds at the year/period end are set out in the Statement of Financial Position.

Results

The tables overleaf set out the profit/loss of the Sub-Funds for the year/period and the primary drivers of the results.

Further details of the distributions by the Sub-Funds during the year/period are set out in Note 8 to the financial statements.

Events during the Year

Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund commenced operations on 10 January 2017 and 24 March 2017 respectively.

The following unit classes launched during the year/period:

- Northern Trust North America Equity Index UCITS FGR Fund Class C Euro
- Northern Trust Europe Equity Index UCITS FGR Fund Class B Euro and Class C Euro
- Northern Trust Developed Real Estate Index UCITS FGR Fund Class C Euro
- Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund Class B Euro
- Northern Trust Developed Real Estate ESG Index Fund Class A Euro, Class B Euro and Class C Euro

Eleanor Fitzgerald and James Wright resigned as Directors of the Manager effective 21 April 2017 and 22 September 2017 respectively. Martha Fee and Bimal Shah were appointed as Directors of the Manager effective 12 December 2017 and 14 December 2017 respectively.

The following unit classes were subject to a 100-for-1 stock split on 14 June 2017:

- Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund Class B Euro
- Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund Class B Euro
- Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund Class B Euro
- Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund Class B Euro
- Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund Class B Euro

Effective from 24 November 2017, the maximum total fees and expenses for the Investment Manager, Manager, Administrator and Depositary in respect of the Feeder Funds were changed. Details of the changes are set out in Note 6 to the financial statements.

There were no other significant events during year/period.

Events since the Year End

The following unit classes launched since the year end:

• Northern Trust Developed Real Estate Index UCITS FGR Fund - Class D Euro

Total distributions declared and paid by the Sub-Funds since the year end were as follows.

Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund	€19,630,138
Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund	€5,872,252
Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund	€5,197,396
Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund	€13,179,095

Further details of the distributions by the Sub-Funds since the year end are set out in Note 24 to the financial statements.

MANAGER'S REPORT (continued)

For the year ended 31 December 2017

Events since the Year End (continued)

Due to a request for a full redemption by the Sub-Fund's sole investor, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund will be terminated on 30 April 2018.

There have been no other significant events subsequent to the year end.

Investment Risks

The Sub-Funds invest in accordance with their respective investment objectives and policies. The value of investments and the income from them, and therefore the value of and income from units relating to each Sub-Fund, is therefore closely linked to the performance of such investments. Investments made by Northern Trust Global Investments Limited (the "Investment Manager") are speculative and an investment in a Sub-Fund, therefore, involves a degree of risk. There is no guarantee that the investment objective of a Sub-Fund, or its risk monitoring, will be achieved and results may vary substantially over time.

The Investment Manager has taken measures to mitigate the risks carried by the investment strategy of each Sub-Fund. The investment objective of each Sub-Fund is to closely match the risk and return of the specific market index of each Sub-Fund. The Sub-Funds operate index tracking strategies whereby they seek to track the risk and return characteristics of their indices by investing directly in assets that are index constituents (i.e. a physical replication model). However, each Sub-Fund does not seek to fully replicate its index but instead seeks to match the Sub-Fund's investments with index constituents on a sample based physical replication model (i.e. an optimisation approach) within the scope of the general UCITS investment restrictions and the specific investment restrictions set out in the Prospectus. Accordingly, investment in a Sub-Fund should not be considered to provide a direct exposure to its index. In normal market conditions each Sub-Fund can be expected to closely match the performance of its index. However, in normal market conditions an ex-post tracking error of up to 1% should be anticipated. This is due to transaction costs and the liquidity impact of the Sub-Funds' optimisation approach.

A Sub-Fund's investment strategy may carry considerable risks. Financial risks that the Sub-Funds' activities expose them to are detailed in Note 12 to the financial statements. The main risks are described below.

Market and Liquidity Risk

Some of the securities traded on the exchanges in which each Sub-Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which each Sub-Fund may liquidate positions to meet repurchase requests or other funding requirements. The securities of small capitalisation companies are less liquid and this may result in fluctuations in the price of the units of the relevant Sub-Fund. As the Sub-Funds invest in daily tradeable financial instruments, the liquidity risk is low. However, in unforeseen circumstances it is possible that the positions of the Sub-Funds cannot be liquidated in time at a reasonable price. In the case of certain Sub-Funds there may be limited exposure to emerging markets and investors should be aware of risks attached to investing in such markets which could have a limited impact on the performance of such relevant Sub-Funds.

Concentration Risks

To the extent the Sub-Funds invest in a greater amount in any one financial instrument, sector or industry, the performance of the Sub-Funds will depend to a greater extent on the overall condition of the financial instrument, sector or industry, and there is increased risk to the Sub-Funds if conditions adversely affect that financial instrument, sector or industry.

Redemption Risks

The redemption of units is subject to restrictions as outlined in the Prospectus and may in circumstances be suspended. Redemptions may cause the Sub-Funds to dispose of investments in order to meet their redemption obligations earlier than anticipated or under less favourable market conditions than the Sub-Funds would otherwise have disposed of such investments. This may result in a lower net asset value, generating lower or negative returns for the non-redeeming unitholders. Significant redemptions may lead to significant losses to unitholders which remain invested in the Sub-Funds.

Reliance on the Manager and Investment Manager

The unitholders have no right to participate in the management of a Sub-Fund or in the control of its business. Accordingly, no person should purchase any units unless he is willing to entrust all aspects of management of the Sub-Fund to Northern Trust Fund Managers (Ireland) Limited (the "Manager"), and all aspects of selection and management of the Sub-Fund's investments to the Investment Manager. The Sub-Funds' success therefore depends substantially on the efforts of the Manager and the Investment Manager.

Risks Associated with Investing in Other Investment Funds

A Sub-Fund may invest in one or more investment funds selected by the Investment Manager in accordance with the respective investment objectives and policies, including schemes managed by the Manager, the Investment Manager or their affiliates. The value of investments and the income from them, and the value of and income from units relating to each Sub-Fund, is therefore closely linked to the performance of such underlying investment funds. The investment programmes of these underlying investment funds may be speculative and an investment in such a Sub-Fund, consequently, involves a high degree of risk.

MANAGER'S REPORT (continued)

For the year ended 31 December 2017

Investment Risks (continued)

Legal and Regulatory Risks

Legal and regulatory (including taxation) changes could adversely affect the Sub-Funds. Regulation (including taxation) of investment vehicles such as the Sub-Funds is still evolving and therefore subject to change. In addition, many governmental agencies, self-regulatory organisations and exchanges are authorised to take extraordinary actions in the event of market emergencies. The effect of any future legal or regulatory (including taxation) change on the Sub-Funds is impossible to predict, but could be substantial and have adverse consequences on the rights and returns of unitholders.

Political and/or Regulatory Risks

The performance of a Sub-Fund may be adversely affected by developments in the countries that such Sub-Fund may invest in, or by changes in economic and market conditions, uncertainties such as political developments, changes in government policies, the imposition of restrictions on the transfer of capital and in legal, regulatory and tax requirements.

Administrative Organisation and Internal Controls

The Manager has documented the administrative organisation and internal controls in accordance with the Act on Financial Supervision (Wet op het financial toezicht) (the "AFS") and the Decree on Conduct of Business of Financial Institutions AFS (Besluit Gedragstoezicht financiële ondernemingen Wft) ("BGfo"). During the year we have reviewed the various aspects of the FGR's operations. Our work did not find anything that would lead us to conclude that the administrative organisation and the system of internal controls as referenced in article 121 of the BGfo do not satisfy the requirements as laid down in the BGfo and related regulations. Furthermore, we did not find that the administrative organisation and internal controls are ineffective or that they do not operate in accordance with their description.

Based on the above, we declare as Manager of the FGR, that we are in possession of a description of the administrative organisation and internal controls in accordance with article 121 of the BGfo which fulfils the requirements of the BGfo. We also state with a reasonable degree of certainty that the administrative organisation and the system of internal controls were effective and operated in accordance with their description during the year.

Remuneration Disclosures

The Manager has a remuneration policy in place to ensure compliance with UCITS V. The Manager has a Board of Directors but does not employ any staff. The Directors primary role is to ensure that all decisions related to the funds under management are taken for the best interests of investors. The Manager pays the Independent Non-Executive Directors a fixed fee per annum. This fee is not related to the performance of the Sub-Funds.

No pension payments are made. A number of factors are included in determining the fee paid including the size and risk profile of the funds under management. The Executive Directors do not receive any compensation from the Manager. Designated Persons (unless Independent Non-Executive Directors) do not receive any compensation.

The Manager sets a framework (setting out the investment objective, the investment policies, the proposed investment strategies and investment limits including leverage, liquidity and credit) that achieves a necessary level of risk control over the delegate investment manager. This framework and the ongoing controls exercised by the Manager ensure that no persons from the delegate investment manager have the capacity to exercise a material impact on the risk profile of the Sub-Funds.

The Manager seeks periodic assurances from the delegate investment manager that they have an appropriate risk management focused remuneration policy in place or one that is in line with regulation which is equally effective as UCITS V, which includes, without limitation:

- (i) CRD/MiFID firms (including firms still subject to CRD III and which have availed of the CRD IV exemptions); and
- (ii) non-EU firms which are subject to group remuneration policies that is equally as effective as MiFID or CRD.

The remuneration policy is reviewed annually. Further details with regard to the remuneration policy are available at the following website: https://www.northerntrust.com/documents/funds/ntfmil-ucits-v-remuneration-disclosure-en.pdf

Sub-Fund Review

Since inception, the Sub-Fund has outperformed the benchmark, being up 5.82% whilst the benchmark has returned 4.78%. For the year ended 31 December 2017, the Sub-Fund has posted an annualised return of 11.56% while the benchmark has returned 10.36% annualised. The ex-post tracking error since inception is 0.25%.

The Federal Reserve left its key interest rate unchanged in a range of 1% to 1.25% at its November monetary policy meeting. Officials expressed largely optimistic views of economic growth, but also started to worry that financial market prices are getting out of hand. Nevertheless, during the December meeting, in a widely anticipated move, the FOMC voted 7-2 to increase the target range for the federal funds rate by 25 bps to 1.25-1.50%. The FOMC acknowledged solid economic expansion, with emphasis on the strength of the labour market and falling unemployment. The FOMC appears to be more confident about transitory factors impacting inflation and its ability to stabilise around its 2% target given a strengthening labour market. Meanwhile, President Trump nominated, and the Senate approved, Jerome Powell as the new Chair of the Federal Reserve, who is expected to stay the course on monetary policy if the economy continues its steady growth. Separately, House and Senate Republicans ironed out differences on the tax reform plan and approved a new version, giving President Trump a major legislative win.

Non-farm payrolls headline print surprised to the upside in November (228k). The unemployment rate remained at a 17-year low of 4.1%, whilst the average hourly earnings missed estimates (0.2% m/m, 2.5% y/y). The third estimate of Q3 GDP growth was revised slightly downwards to 3.2% from 3.3%. US manufacturing activity slowed a little less than expected in November, wherein the manufacturing PMI fell to 53.9 from 54.6 in October. Headline inflation rose 0.4% m/m, 2.2% y/y in November, whilst core CPI slowed to 1.7% y/y in November from 1.8% in October. Retail sales increased 4.9% versus the same period last year. Separately, housing starts increased 3.3% to a seasonally adjusted annual rate of 1.297m units. Overall, the economic outlook remains roughly balanced and weaker inflation prints are seen as transitory. Further, some of the market participants took into account possible fiscal stimulus, which resulted in more bullish GDP growth and lower unemployment forecasts than expected, whilst inflation projections were unchanged.

Sub-Fund Review

Since inception, the Sub-Fund has outperformed the benchmark, being up 15.62% whilst the benchmark has returned 15.00%. For the year ended 31 December 2017, the Sub-Fund has posted an annualised return of 11.02% while the benchmark has returned 10.49% annualised. The ex-post tracking error since inception is 0.81%.

The ECB kept all interest rates and forward guidance unchanged during its October meeting, but announced adjustments to non-standard monetary policy measures, as it continues with a substantial level of accommodative policy. The QE programme was extended until at least September 2018, but the pace of asset purchases was scaled down to €30 bn/month from January 2018. Further, the ECB confirmed reinvestment of maturing holdings, in the same jurisdiction as principal redemption, to reduce divergence from the capital key. ECB President Mario Draghi emphasised that there will be no sudden stop to the programme and noted that the majority of the Council favoured keeping QE open-ended to ensure continuation of the accommodative stance. With no Monetary Policy Committee meeting in November, President Draghi warned that although the Eurozone economy was 'robust', recovery was still heavily reliant on stimulus from the ECB. In October's set of staff projections, growth and inflation projections were revised. However, the projections received further revisions, wherein the Eurozone economic growth is forecast to be 2.4% in 2017), 2.3% in 2018 and 1.9% in 2019. Inflation forecasts were revised up for 2018, to 1.4% from 1.2%, but prices are seen growing by just 1.7% in 2020.

The Eurozone economy continued to perform robustly in the third quarter of 2017 according to a second preliminary estimate, wherein GDP increased 0.6% q/q and 2.5% y/y which was above the second quarter's 2.3% y/y increase. Meanwhile, inflation was 1.5% in November, a touch higher than October's 1.4% reading. Core inflation remains anchored at 0.9%, unchanged for three months. The Eurozone Composite PMI came in at a nearly seven-year high of 58.0 in December, up from November's 57.5. Industrial production increased 0.2% from the previous month, contrasting September's 0.5% decrease. The German Ifo Business Climate Index declined modestly to 117.2 in December from an upwardly revised 117.6 post-unification record the month before.

Sub-Fund Review

Since inception, the Sub-Fund has outperformed the benchmark, being down -1.77% whilst the benchmark has returned -2.24%. The first tracking error for the Sub-Fund has not yet been calculated.

The Federal Reserve left its key interest rate unchanged in a range of 1% to 1.25% at its November monetary policy meeting. Officials expressed largely optimistic views of economic growth, but also started to worry that financial market prices are getting out of hand. Nevertheless, during the December meeting, in a widely anticipated move, the FOMC voted 7-2 to increase the target range for the federal funds rate by 25 bps to 1.25-1.50%. The FOMC acknowledged solid economic expansion, with emphasis on the strength of the labour market and falling unemployment. The FOMC appears to be more confident about transitory factors impacting inflation and its ability to stabilise around its 2% target given a strengthening labour market. Meanwhile, President Trump nominated, and the Senate approved, Jerome Powell as the new Chair of the Federal Reserve, who is expected to stay the course on monetary policy if the economy continues its steady growth. Separately, House and Senate Republicans ironed out differences on the tax reform plan and approved a new version, giving President Trump a major legislative win.

Non-farm payrolls headline print surprised to the upside in November (228k). The unemployment rate remained at a 17-year low of 4.1%, whilst the average hourly earnings missed estimates (0.2% m/m, 2.5% y/y). The third estimate of Q3 GDP growth was revised slightly downwards to 3.2% from 3.3%. US manufacturing activity slowed a little less than expected in November, wherein the manufacturing PMI fell to 53.9 from 54.6 in October. Headline inflation rose 0.4% m/m, 2.2% y/y in November, whilst core CPI slowed to 1.7% y/y in November from 1.8% in October. Retail sales increased 4.9% versus the same period last year. Separately, housing starts increased 3.3% to a seasonally adjusted annual rate of 1.297m units. Overall, the economic outlook remains roughly balanced and weaker inflation prints are seen as transitory. Further, some of the market participants took into account possible fiscal stimulus, which resulted in more bullish GDP growth and lower unemployment forecasts than expected, whilst inflation projections were unchanged.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

For the year ended 31 December 2017

1. General

Northern Trust UCITS FGR Fund (the "FGR") is an investment fund (beleggingsfonds) as referred to in article 1:1 of the Act on Financial Supervision (Wet op het financial toezicht) (the "AFS"). The FGR is structured as an open-ended umbrella fund with multiple sub-funds for joint account of the unitholders (fonds voor gemene rekening) governed by the laws of the Netherlands. The FGR is not a legal entity, but the aggregate of the assets of its sub-funds less an amount equal to all accrued debts, liabilities and obligations of the sub-funds, in which monies or other assets are called or received for the purpose of collective investment by the unitholders, as governed by the Prospectus and the terms and conditions of the agreement entered into between Northern Trust Fund Managers (Ireland) Limited (the "Manager") and Stichting Bewaarder Anchor NL Beleggingsfondsen (the "Legal Titleholder").

The FGR was established on 26 November 2014 as an Undertaking for Collective Investments in Transferable Securities (UCITS) as defined in the AFS, and shall continue to exist for an indefinite period of time.

The FGR's registered office address is Claude Debussylaan 18A, 1082 MD Amsterdam, the Netherlands.

The FGR has no employees.

As at 31 December 2017, the FGR comprises of ten sub-funds: Northern Trust North America Equity Index UCITS FGR Fund; Northern Trust Europe Equity Index UCITS FGR Fund; Northern Trust Developed Real Estate Index UCITS FGR Fund; Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund; Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund; Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund; Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund; Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund; and Northern Trust Developed Real Estate ESG Index Fund (the "Sub-Funds"). Additional sub-funds may be established from time to time by the Manager.

Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate Index UCITS FGR Fund all commenced operations on 11 March 2015. Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund commenced operations on 15 December 2015. Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund commenced operations on 24 September 2015, 9 October 2015, 21 December and 15 January 2016 respectively. Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund commenced operations on 10 January 2017 and 24 March 2017 respectively.

The investment objectives of Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Developed Real Estate Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund are to closely match the risks and returns of the MSCI North America Index, MSCI Europe Index, FTSE EPRA/NAREIT Developed Index, MSCI Emerging Markets Custom ESG Index, MSCI World Custom ESG Minimum Volatility (EUR) Index and Northern Trust GRESB Developed Real Estate ESG Index respectively, with net dividends reinvested.

The investment objectives of Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund (the "Feeder Funds") are to invest at least 85% of their assets in Northern Trust World Custom ESG Equity Index Fund, Northern Trust Europe Custom ESG Equity Index Fund, Northern Trust North America Custom ESG Equity Index Fund and Northern Trust Europe Fundamental Index Fund (the "Master Funds") respectively.

The Master Funds are all sub-funds of Northern Trust UCITS Common Contractual Fund which is authorised in Ireland and regulated by the Central Bank of Ireland. The investment objectives of Northern Trust World Custom ESG Equity Index Fund, Northern Trust Europe Custom ESG Equity Index Fund, Northern Trust North America Custom ESG Equity Index Fund and Northern Trust Europe Fundamental Index Fund are to closely match the risks and returns of the MSCI World Custom ESG Index, MSCI Europe Custom ESG Index, MSCI North America Custom ESG Index and FTSE RAFI Europe Index - QSR respectively, with net dividends reinvested. The most recent annual report and financial statements for Northern Trust UCITS Common Contractual Fund is available at the following website: www.northerntrust.com/pooledfunds.

Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") has been appointed by the Manager to act as administrator, registrar and transfer agent under the terms of an administration agreement which has been entered into on an arm's length basis. Northern Trust Global Services Limited, Amsterdam Branch (the "Depositary") has been appointed by the Manager to act as depositary responsible for the safekeeping (amongst other responsibilities) of all of the assets of each Sub-Fund under the terms of a depositary agreement which has been entered into on an arm's length basis. The Manager has appointed Northern Trust Global Investments Limited (the "Investment Manager") to provide discretionary investment management services to the Sub-Funds.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

2. Basis of Accounting

Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS), Part 9 of Book 2 of the Netherlands Civil Code, the AFS and RJ 615 *Investment Entities*. The Manager's Report is prepared in accordance with Part 9 of Book 2 of the Netherlands Civil Code, the AFS and RJ 615.

Going Concern

Management has a reasonable expectation that the Sub-Funds, except Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund, have adequate resources to continue in operational existence for the foreseeable future. Therefore the Sub-Funds, except Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund, continue to adopt the going concern basis of accounting in preparing their financial statements. As explained in Note 24, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund will terminate on 30 April 2018. Accordingly, the Sub-Fund's financial statements have been prepared on a nongoing concern basis of accounting.

3. Functional and Presentation Currency

The functional currency of each Sub-Fund is the currency of the primary economic environment in which the Sub-Fund operates. Management have determined the functional currency of Northern Trust North America Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate Index UCITS FGR Fund to be the US dollar (US\$), as the US dollar most faithfully represents the economic effects of their underlying transactions, events and conditions. Management have determined the functional currency of Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Fundamental Index UCITS

Management has adopted the functional currency of each individual Sub-Fund as its presentation currency. The Sub-Funds may issue unit classes denominated in a currency other than its functional currency. Information in respect of the Sub-Funds' units is presented in their denominated currency as it is more relevant to investors.

4. Use of Judgements and Estimates

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively. Information about significant areas of estimation and critical judgement in applying accounting policies is included in Note 3 and Note 5 - Financial Instruments: Fair Value Measurement Principles.

5. Significant Accounting Policies

Basis of Measurement

The financial statements of the Sub-Funds, except Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund, except have been prepared under the historical cost basis, as modified by the revaluation of financial assets and financial liabilities (including financial derivative instruments) at fair value through profit or loss. The financial statements of Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund have been prepared on a non-going concern basis of accounting where all assets are stated at their estimated recoverable amounts. As the assets of the Sub-Fund were already carried at amounts which approximate their recoverable amounts the re-measurement has not resulted in any adjustments to their value.

The financial statements of all Sub-Funds, except Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund, are for the year ended 31 December 2017. The financial statements of Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund are for the period from 10 January 2017 and 24 March 2017, the date of each Sub-Fund's launch, to 31 December 2017 respectively. The comparative information of all Sub-Funds, except Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund, is for the year ended 31 December 2016. The comparative information of Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund is for the period from 15 January 2016, the date of the Sub-Fund's launch, to 31 December 2016. The financial statements of Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund do not include comparative information as this is the first reporting period for the Sub-Funds.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

5. Significant Accounting Policies (continued)

Basis of Measurement (continued)

The year/period end valuations were completed as at 29 December 2017, which was the last business day of the year/period.

New Standards and Amendments - Applicable 1 January 2017

Amendments to IAS 7 Statement of Cash Flows became effective for annual reporting periods beginning on or after 1 January 2017. These amendments require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

All the Sub-Funds, except Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund and Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund, classify their redeemable participating units as financial liabilities in accordance with IAS 32. These Sub-Funds present (i) a Statement of Changes in Net Assets which reconciles the opening and closing amounts based on unitholder transactions and the increase/(decrease) in net assets attributable to holders of redeemable participating units from operations (ii) a Statement of Cash Flows which discloses the cash movements resulting from operating activities and from unitholder transactions and (iii) a Statement of Comprehensive Income which discloses the income and expenses that comprise the increase/(decrease) in net assets attributable to holders of redeemable participating units from operations. The financial statements of these Sub-Funds also include qualitative disclosure which indicates how the net asset value attributable to redeemable unitholders is calculated. The combination of the above disclosures is considered to be sufficient to address the requirements of the amendments.

There are no other standards, amendments to standards or interpretations that are effective for annual reporting periods beginning on 1 January 2017 of relevance to the Sub-Funds.

New Standards and Amendments - Applicable After 1 January 2017

A number of new standards, amendments to standards and interpretations are effective for annual reporting periods beginning after 1 January 2017, and have not been applied in preparing these financial statements. Only the below new standard is deemed to have potential relevance to the Sub-Funds.

IFRS 9 *Financial Instruments* will replace IAS 39 *Financial Instruments: Recognition and Measurement.* It includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment of financial assets and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. IFRS 9 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted.

Adoption of IFRS 9 is not expected to have a material impact on the Sub-Funds' financial statements.

Dividend Income and Bank Interest

Dividend income is recognised in the Statement of Comprehensive Income on an ex-dividend date basis. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

Bank interest is accounted for on an effective interest rate basis.

Fees and Expenses

Investment management fees, management fees, administration fees, depositary fees and other operating expenses are charged to the Statement of Comprehensive Income on an accruals basis as the related services are performed.

Financial Instruments

(i) Classification

In accordance with IAS 39, the Sub-Funds classify investments in equity and financial derivative instruments into the financial assets and financial liabilities at fair value through profit or loss category.

The category of financial assets and financial liabilities at fair value through profit or loss comprises:

- Financial instruments held for trading: These comprise investments in futures contracts. These instruments are acquired principally for the purpose of generating a profit from short–term fluctuations in price.
- Financial instruments designated at fair value through profit or loss upon initial recognition: These include investments in equities and investment funds which are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the investment strategies of the Sub-Funds.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

5. Significant Accounting Policies (continued)

Financial Instruments (continued)

(i) Classification (continued)

Financial assets that are classified as loans and receivables include cash, margin cash, dividends receivable, receivable for securities sold, subscriptions receivable, withholding tax rebates, withholding tax reclaims and other assets.

Financial liabilities that are not at fair value through profit or loss include payable for securities purchased, Redemptions payable, fees payable, other expenses payable and liabilities and financial liabilities arising on redeemable participating units.

(ii) Recognition

The Sub-Funds recognise financial assets and financial liabilities on the trade date, the date the Sub-Funds become party to the contractual provisions of the instrument, or on the date on which they are originated.

(iii) Measurement

Financial instruments at fair value through profit or loss are initially recognised at fair value, with transaction costs recognised in the Statement of Comprehensive Income. Financial assets or financial liabilities not at fair value through profit or loss are initially recognised at fair value plus transaction costs that were directly attributable to their acquisition or issue.

Subsequent to initial recognition, all financial instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

Financial assets classified as loans and receivables are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities not at fair value through profit or loss, other than those arising on redeemable participating units, are measured at amortised cost using the effective interest rate. Financial liabilities arising from the redeemable units issued by the Sub-Funds are carried at the redeemption amount representing the investors' right to a residual interest in the Sub-Funds' assets.

(iv) Fair Value Measurement Principles

The fair value of financial instruments traded in active markets is based on their quoted market prices at the measurement date. The Sub-Funds utilise the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Sub-Funds determine the point within the bid-ask spread that is most representative of fair value.

If a quoted market price is not available on a recognised stock exchange, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Investment funds are measured at the net asset value per unit as reported by the administrator of the investment fund at the measurement date which is considered to represent fair value.

(v) Impairment

Financial assets that are stated at cost or amortised cost are reviewed at each measurement date to determine whether there is objective evidence of impairment. If any such indication exists, an impairment loss is recognised in the Statement of Comprehensive Income as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

If the amount of an impairment loss recognised on a financial asset carried at amortised cost subsequently decreases and the decrease can be linked objectively to an event occurring after the write-down, then the write-down is reversed through the Statement of Comprehensive Income.

(vi) Derecognition

A financial asset is derecognised when the Sub-Funds lose control over the contractual rights to the cash flows that comprise that asset. This occurs when the rights are realised, expire or are surrendered and control is not retained. A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

(vii) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

5. Significant Accounting Policies (continued)

Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the Sub-Funds had not acquired, issued or disposed of the financial instrument. Transaction costs are recognised in the Statement of Comprehensive Income, when incurred, as an expense.

Net Gains and Losses on Investments

Realised gains or losses on disposal of financial instruments at fair value through profit or loss and unrealised gains or losses on revaluation of financial instruments at fair value through profit or loss at the measurement date are calculated on a weighted average cost basis and recognised in the Statement of Comprehensive Income.

Redeemable Participating Units

The Sub-Funds classify financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

All the Sub-Funds' redeemable participating units provide investors with the right to require redemption for cash at the value proportionate to the investor's share in the Sub-Fund's net assets at each daily redemption date.

In accordance with IAS 32, a puttable financial instrument that includes a contractual obligation for a Sub-Fund to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the following conditions:

- it entitles the holder to a pro rata share of the Sub-Fund's net assets in the event of the Sub-Fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- apart from the contractual obligation for the Sub-Fund to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Sub-Fund over the life of the instrument.

Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund's and Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund's redeemable participating units meet these conditions and are classified as equity. The other Sub-Funds' redeemable participating units do not meet these conditions and are classified as financial liabilities measured at the present value of their redemption amount.

Foreign Currency

Transactions in foreign currencies are translated into the functional currency of the Sub-Funds at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency of the Sub-Funds at the closing exchange rate at the measurement date. Non-monetary assets and liabilities that are measured at fair value in foreign currencies are translated into the functional currency of the Sub-Funds at the exchange rates at the dates that the values were determined.

Foreign currency exchange differences relating to financial instruments at fair value through profit or loss are included within gains and losses from financial instruments at fair value through profit or loss in the Statement of Comprehensive Income. All other foreign currency exchange differences relating to cash are included within net realised and unrealised gains/losses on foreign currency in the Statement of Comprehensive Income.

Futures Contracts

For open futures contracts, changes in the value of the contract are recognised as unrealised gains or losses by "marking to market" the value of the contract at the measurement date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction are recorded as a realised gain or loss.

Distributions

As a result of the classification of their redeemable participating units as equity, Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund's and Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund's distributions are recognised in the Statement of Changes in Net Assets. As a result of the classification of their redeemable participating units as liabilities, all other Sub-Funds' distributions are recognised in the Statement of Comprehensive Income as finance costs.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

5. Significant Accounting Policies (continued)

Taxation

The FGR is an open-ended umbrella fund for joint account (fonds voor gemene rekening) within the meaning of article 2(2) of the Corporate Income Tax Act 1969 (Wet vennootschapsbelasting 1969) and has the status of a Fiscal Investment Institution (FII) within the meaning of article 28 of the Corporate Income Tax Act 1969. As such, the Sub-Funds are subject to a Dutch corporate income tax rate of 0%. To qualify for and to maintain FII status, the Sub-Funds must, amongst other requirements, distribute their net income as dividends to their investors within eight months following the end of the financial year. If certain conditions are met, the Sub-Funds may opt to form a reinvestment reserve. In that case, the positive or negative balance of the Sub-Funds' unrealised capital gains on securities are added to, or charged against this reserve. The amounts added to, or charged against, the reinvestment reserve do not form part of the income of the Sub-Funds that need to be distributed within eight months following the end of the financial year.

Dividend distributions made by Netherlands resident entities to the Sub-Funds may be subject to the 15% Netherlands dividend withholding tax. In addition, withholding tax may be withheld on proceeds derived by the Sub-Funds from foreign investments, both on dividends as well as on interest payments made to the Sub-Funds.

Under the Dutch Dividend Withholding Tax Act 1965 (Wet op de dividendbelasting 1965), dividends distributed by the Sub-Funds are in principle subject to a 15% dividend withholding tax. The Sub-Funds are required to remit to the Dutch tax authorities the 15% dividend withholding tax that they have withheld on dividend payments. However, insofar as the FGR qualifies as a FII; the Sub-Funds are entitled to the so-called tax rebate (afdrachtsvermindering) of article 11a Dividend Withholding Tax Act 1965. As a result of the tax rebate the amount of dividend withholding tax that the Sub-Funds are required to remit to the Dutch tax authorities is reduced, if the Sub-Funds themselves have received dividends and interest that have been subject to a Dutch or foreign withholding tax.

Cash

Cash comprises current deposits with banks.

Margin Cash

Cash collateral provided by the Sub-Funds to a counterparty in relation to futures contracts is presented in the Statement of Financial Position as margin cash.

Structured Entities

Investments in Master Funds

The Master Funds are not considered to be subsidiaries of their respective Feeder Funds as the units held by them do not give the holders the current ability to direct the activities that significantly affect the returns of both these Feeder Funds and their respective Master Funds. IFRS 10's single control model states that an entity has control over an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Manager is satisfied that the Master Funds do not meet the definition of subsidiaries in accordance with IFRS 10 and meet the definition of structured entities in accordance with IFRS 12.

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes: (a) restricted activities; (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors; (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support; and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks.

The Manager has determined that the Feeder Funds' investments in their respective Master Funds represent investments in unconsolidated structured entities. The investment objectives of the Master Funds are detailed in Note 1. The Master Funds seek to achieve their investment objectives through investing primarily in a diversified portfolio of transferable equity securities issued by companies in their respective indices.

The investment manager of the Master Funds is Northern Trust Global Investments Limited. The Master Funds finance their operations by issuing redeemable participating units which are puttable at the holders' option and entitle the holder to a proportional stake in the Master Funds' net assets. The Feeder Funds each hold redeemable participating units and interests in their respective Master Funds. The holdings of the Feeder Funds in the units of their Master Funds are included in the Statement of Financial Position within investment funds and are detailed in Note 17. The changes in fair value of the Feeder Funds holdings in the Master Funds and dividends received by Feeder Funds from their the Master Funds are included in the Statement of Comprehensive Income within net realised and unrealised gains/losses on investments and dividend income respectively, and are disclosed in Note 12 and Note 11 respectively.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

6. Fees and Expenses

The fees applicable to Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Developed Real Estate Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund are as follows:

- The maximum total fees and expenses for each Sub-Fund (excluding rebalancing and transaction fees and expenses) are 1 per cent of the net asset value of the Sub-Fund.
- The maximum total fees and expenses for the Investment Manager, Manager, Administrator and Depositary are 0.6 per cent of the net asset value of each Sub-Fund.
- The maximum fees and expenses of the Investment Manager are 0.2 per cent of the net asset value of each Sub-Fund. The maximum fees and expenses of the Manager are 0.2 per cent of the net asset value of each Sub-Fund. The maximum combined fees and expenses of the Administrator and Depositary are 0.2 per cent of the net asset value of each Sub-Fund.

The fees applicable to Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund are as follows:

- The maximum total fees and expenses for each Sub-Fund are 0.20 per cent of the net asset value of the Sub-Fund.
- Until 23 November 2017, the maximum total fees and expenses for the Investment Manager, Manager, Administrator and Depositary were 0.15 per cent of the net asset value of each Sub-Fund. Effective from 24 November 2017, the maximum total fees and expenses for the Investment Manager, Manager, Administrator and Depositary are 0.17 per cent of the net asset value of each Sub-Fund.
- Until 23 November 2017, the Investment Manager did not charge any fees and expenses to the Sub-Funds. Effective from 24 November 2017, the maximum fees and expenses of the Investment Manager are 0.12 per cent of the net asset value of each Sub-Fund. Until 23 November 2017, the maximum fees and expenses of the Manager were 0.05 per cent of the net asset value of each Sub-Fund. Effective from 24 November 2017, the maximum fees and expenses of the Manager are 0.01 per cent of the net asset value of each Sub-Fund. Until 23 November 2017, the maximum combined fees and expenses of the Administrator and Depositary were 0.10 per cent of the net asset value of each Sub-Fund. Effective from 24 November 2017, the maximum combined fees and expenses of the Administrator and Depositary are 0.04 per cent of the net asset value of each Sub-Fund.

All the above fees accrue and are calculated on each dealing day and are payable quarterly in arrears. The actual fees earned by the Investment Manager, Manager, Administrator and Depositary for the year/period are disclosed in the Statement of Comprehensive Income.

The expense methodology applied to the actual expenses charged to the Sub-Funds during the year/period does not differ to the expense methodology stated above and in the Prospectus.

Transaction costs are costs incurred to acquire or dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs for the year/period are disclosed in the Statement of Comprehensive Income.

The Manager may apply on behalf of the Sub-Funds a subscription charge of up to five per cent of the net asset value per unit and a redemption charge of up to three per cent of the net asset value per unit payable to the Manager or its appointed distributor, Northern Trust Global Investments Limited. The Sub-Funds did not charge any subscription or redemption fees during the year/period ended 31 December 2017 or the year/period ended 31 December 2016.

The costs of the FGR are charged out of the assets of the Sub-Funds on a pro rata basis. The costs of establishing each Sub-Fund are charged out of the assets of the relevant Sub-Fund.

Audit fees of €97,287 (ex VAT) were incurred in relation to the statutory audit of the financial statements of the Sub-Funds for the year/period (2016: €76,414 (ex VAT)).

7. Dilution Adjustment

Units are issued and redeemed at a single issue and redemption price. The net asset value per unit may be adjusted on any dealing day depending on whether or not a Sub-Fund is in a net subscription position or in a net redemption position on such dealing day to arrive at the price. The adjustment relates to costs which impact on the value of the Sub-Fund.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

7. Dilution Adjustment (continued)

For valuation purposes, the securities are valued as outlined in the Prospectus. When these values are compared with the actual cost of buying or selling assets for a Sub-Fund, differences arise due to dealing charges and spreads from buying and selling of the underlying investments. These costs have an adverse effect on the value of a Sub-Fund and are known as "dilution".

To mitigate the effects of dilution, the Manager may at its discretion make a dilution adjustment as, in its opinion, the existing unitholders, in case of subscriptions, or remaining unitholders, in case of redemptions, are adversely affected.

The dilution adjustment involves adding to, when the Sub-Fund is in a net subscription position, and deducting from, when the Sub-Fund is in a net redemption position, the net asset value per unit such a figure as the Manager considers represents an appropriate figure to meet duties, charges and spreads. When a dilution adjustment is made, it increases the price where the Sub-Fund is in a net subscription position and decreases the price where the Sub-Fund is in a net redemption position.

The dealing net asset value per unit for the Sub-Funds may include a dilution adjustment which is not recognised in the financial statements in accordance with IFRS. The dealing net asset value per unit for the Sub-Funds did not include any dilution adjustment at 31 December 2017, 31 December 2016 or 31 December 2015 and correspond to their net asset value per unit disclosed in Note 20.

8. Distributions

- Distributions of €14,273,793 (2016: €10,048,726) were paid to Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund by Northern Trust Europe Fundamental Index Fund during the year ended 31 December 2017.

12. Financial Instruments and Associated Risks

The investment objectives of the Sub-Funds are detailed in Note 1. The Sub-Funds' activities expose them to a variety of financial risks: market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk. The Sub-Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Sub-Funds' financial performance. The Sub-Funds may use financial derivative instruments to moderate certain risk exposures.

The Investment Manager assesses the risk profiles of the Sub-Funds on the basis of their investment policies, strategies and their use made of financial derivative instruments. Based on the risk profile, the Investment Manager has determined to calculate global exposure for all Sub-Funds using the commitment approach.

Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund and Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund seek to achieve their investment objectives through investment primarily in a diversified portfolio of transferable equity securities issued by companies within their respective indices. Northern Trust Developed Real Estate Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund seek to achieve their investment objectives through investment primarily in a diversified portfolio of real estate related securities listed or traded on markets worldwide including listed real estate investment trusts (REITs) and transferable equity securities issued by companies within their respective indices whose principal business is the ownership, management and/or development of income producing and for sale real estate.

Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Developed Real Estate Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund may also invest up to 10% of their net asset value indirectly in equities securities comprised within their respective indices through holdings in open-ended investment funds with investment objectives which are materially similar to the Sub-Funds'.

In addition to investing at least 85% of their assets in their respective Master Funds, Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund may also invest up to 15% of their assets in aggregate in ancillary liquid assets including cash deposits, cash equivalents, certificates of deposits and money market instruments.

Market Risk

(i) Price Risk

Price risk is the risk that the fair value of an instrument will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk), whether caused by factors specific to an individual investment or its issuer or factors affecting all instruments traded in the market. The Sub-Funds' investments are susceptible to price risk arising from uncertainties about future prices of these instruments.

Total

The price risk of Northern Trust North America Equity Index UCITS FGR Fund, Northern Trust Europe Equity Index UCITS FGR Fund, Northern Trust Developed Real Estate Index UCITS FGR Fund, Northern Trust Emerging Markets Custom ESG Equity Index UCITS FGR Fund, Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund is managed by investing primarily in a diversified portfolio of companies listed or traded on a regulated stock exchange or market.

The Feeder Funds' investments in the Master Funds are subject to the terms and conditions of the Master Funds offering documentation and are susceptible to market price risk arising from uncertainties about future values of the Master Funds. The Master Funds are managed by Northern Trust Global Investments Limited, who is compensated by the respective Master Funds for its services. Such compensation consists of an asset based fee which is reflected in the valuation of the Feeder Funds' investments in their respective Master Funds. The Feeder Funds have the right to request redemption of their investments in the Master Funds on a daily basis.

The Sub-Funds may use the following derivative instruments for efficient portfolio management or currency hedging purposes: forward currency contracts and exchange traded futures contracts.

The Sub-Funds' overall market positions are monitored on a daily basis by the Investment Manager.

The following tables detail the concentration of the investments held by the Sub-Funds by asset class as at the year/period end.

The Feeder Funds maximum exposure to loss from their interests in the Master Funds is equal to the total fair value of their investments in the Master Funds. The Feeder Funds' strategies entail trading in their respective Master Funds on a regular basis. Total purchases and sales in the Master Funds by the Feeder Funds during the year are detailed in Note 11. There were no capital commitment obligations at the year end or the prior year/period end. Amounts due from the Feeder Funds for unsettled purchases at the year end are disclosed in the Statement of Financial Position.

During the year ended 31 December 2017, net gains on investments in the Master Funds were: 666,633,421 for Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund (2016: 685,863,647); 14,075,248 for Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund (2016: 66,348,837); 15,223,957 for Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund (2016: 66,445,095); and 30,704,156 for Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund (2016: 42,505,572). Distributions paid to the Feeder Funds by Master Funds during the year are disclosed in note 11.

(ii) Interest Rate Risk

Substantially all of the Sub-Funds' financial assets and financial liabilities are non-interest bearing. Any excess cash is invested in ancillary liquid assets at short-term market interest rates. As a result, the Sub-Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

(iii) Currency Risk

The Sub-Funds hold financial instruments denominated in currencies other than their functional currencies. They are therefore exposed to currency risk, as the value of the financial assets and financial liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

The Sub-Funds may enter into currency exchange transactions in an attempt to protect against changes in currency exchange rates between the trade and settlement dates of specific securities transactions or anticipated securities transactions. The Sub-Funds may also enter into forward contracts to hedge against a change in currency exchange rates that would cause a decline in the value of existing investments denominated or principally traded in a currency other than the functional currency of the Sub-Funds. To do this, the Sub-Funds would enter into a forward contract to sell the currency in which the investment is denominated or principally traded in exchange for the functional currency of the Sub-Funds.

The following tables set out the Sub-Funds' financial assets and financial liabilities exposed to foreign currency risk as at the year/period end.

Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund, Northern Trust Europe Custom ESG Equity Index UCITS FGR Feeder Fund and Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund have no material direct exposure to currency risk.

If the exchange rates as at 31 December 2017 and 31 December 2016 between the functional currency of each Sub-Fund and the non-functional currencies to which the Sub-Funds are exposed had increased or decreased by 5%, with all other variables held constant, this would have decreased or increased respectively net assets attributable to holders of redeemable preference units by approximately the amounts shown below. The Manager believes that a movement of 5% is reasonably possible.

	31 December 2017	31 December 2016

In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' currency risk on a daily basis.

Credit Risk

The Sub-Funds are exposed to credit risk, which is the risk that a counterparty will fail to discharge an obligation resulting in a financial loss to a Sub-Fund. Impairment provisions are provided for losses that have been incurred by the year/period end, if any. The carrying amounts of financial assets best represent the maximum credit risk exposure as at the year/period end. This relates also to financial assets carried at amortised cost, as they have a short-term to maturity.

The tables overleaf set out the carrying amounts of the Sub-Funds' financial assets exposed to credit risk as at the year/period end.

The Investment Manager analyses credit concentration based on the counterparty, industry and geographical location of the financial assets that the Sub-Funds hold.

Credit risk is managed by monitoring the credit quality and financial positions of the Depositary and the counterparty the Sub-Funds use.

Substantially all of the cash assets and financial instruments of the Sub-Funds are held with The Northern Trust Company. Further details are disclosed in the Depositary's Credit Risk Statement below.

As at the year/period end, Citigroup Global Markets Ltd, the counterparty of the futures contracts, had a credit rating from Standard & Poor's of A+ (2016: A+).

All transactions in equities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' exposure to credit risk on a daily basis.

Depositary's Credit Risk Statement

Northern Trust Global Services Limited, Amsterdam Branch (NTGSLAM) is the appointed Depositary of the FGR, responsible for the safekeeping of assets. NTGSLAM has appointed The Northern Trust Company (TNTC) as its global sub-custodian. Both NTGSLAM and TNTC are wholly owned subsidiaries of Northern Trust Corporation (NTC). As at the year/period end, NTC had a long term credit rating from Standard & Poor's of A+ (2016: A+).

NTGSLAM, in the discharge of its depositary duties, verifies the Sub-Funds' ownership of Other Assets (as defined under Article 22(5) of UCITS V Directive 2014/91/EU) by assessing whether the Sub-Funds hold the ownership based on information or documents provided by the FGR or where available, on external evidence.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

12. Financial Instruments and Associated Risks (continued)

Credit Risk (continued)

Depositary's Credit Risk Statement (continued)

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Sub-Funds, clearly identifiable as belonging to the Sub-Funds, and distinct and separately from the proprietary assets of TNTC, NTGSLAM and NTC.

In addition TNTC, as banker, holds cash of the Sub-Funds on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Sub-Funds will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTGSLAM and or one of its agents or affiliates may cause the Sub-Funds' rights with respect to their assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary.

Cross Liability Risk

The FGR has segregated liability between its Sub-Funds and accordingly any liability incurred on behalf of or attributable to any Sub-Fund shall be discharged solely out of the assets of that Sub-Fund.

Liquidity Risk

The main liability of the Sub-Funds is the redemption of any units that investors wish to sell. The Prospectus provides for the daily creation and cancellation of units and the Sub-Funds are therefore exposed to the liquidity risk of meeting unitholder redemptions at any time. The Sub-Fund's financial instruments include investments in equities and investment funds, which can normally be easily liquidated at an amount close to fair value in order to meet liquidity requirements.

The Sub-Funds may, from time to time, invest in derivative contracts traded over-the-counter, which are not traded in an organised market and may be illiquid. As a result, the Sub-Funds may not be able to liquidate quickly their investments in these instruments at an amount close to their fair value in order to meet their liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' liquidity risk on a daily basis.

The tables below show the residual contractual maturities of the Sub-Funds' financial liabilities as at the year/period end.

As a result of the classification of their units as equity, Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund's and Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund's net assets attributable to holders of redeemable participating units are not included in the above analyses of financial liabilities.

13. Fair Value Measurement

IFRS 13 requires the Sub-Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Inputs that are quoted prices for identical instruments in active markets;
- Level 2: Inputs that are quoted prices for similar instruments in active markets and model-derived valuations whose significant value drivers are observable; and
- Level 3: Inputs that are unobservable.

Broadly, the framework requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants.

For financial assets and financial liabilities, fair value is the price the Sub-Funds would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction occurring at the measurement date.

The determination of what constitutes observable inputs may require judgement by management. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect management's market assumptions. Preference is given to observable inputs.

The objective of the valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The tables overleaf within the fair value hierarchy the Sub-Funds' financial assets and financial liabilities (by class) measured at fair value through profit or loss at the year/period end.

Financial instruments, whose values are based on quoted market prices in active markets, and therefore are classified within Level 1, include active listed equities and investment funds and exchange traded derivatives. The Sub-Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include listed equities whose trading was inactive as at the year/period/end and unlisted investment funds. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no financial instruments classified as Level 3 as at 31 December 2017 or 31 December 2016.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

13. Fair Value Measurement (continued)

The equities classified as Level 2 as at 31 December 2017 due to their trading being inactive were not held by the Sub-Funds as at 31 December 2016. The following tables set out the investment funds transferred between levels during the year ended 31 December 2017. The transfers relate to investment funds that were listed as at 31 December 2016 but were delisted during the year ended 31 December 2017.

	Level 1	Level 2
	Investment funds	Investment funds
Northern Trust North America Equity Index UCITS FGR Fund	US\$(6,844,098)	US\$6,844,098

Northern Trust North America Custom ESG Equity Index UCITS FGR Feeder Fund	€(6,819)	€6,819
Northern Trust Europe Fundamental Index UCITS FGR Feeder Fund	€(13,761)	€13,761

There were no transfers between levels on Northern Trust World Custom ESG Equity Index UCITS FGR Feeder Fund during the year ended 31 December 2017 or any of the Sub-Funds during the year ended 31 December 2016.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

Most of the Sub-Funds' financial instruments are measured at fair value on the Statement of Financial Position. Usually the fair value of the financial instruments can be reliably determined within a reasonable range of estimates. For certain other financial instruments the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments. The carrying value of all the Sub-Funds' financial assets and financial liabilities at the year/period end approximated their fair values.

For each class of the Sub-Funds' assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, the Sub-Funds are required to disclose the level within the fair value hierarchy which the fair value measurement would be categorised.

For the year/period ended 31 December 2017 and the year/period ended 31 December 2016, cash, whose carrying amount approximate to fair value, were classified as Level 1. Margin cash, receivables, other assets, payables and other liabilities, whose carrying amount approximate to fair value, were classified as Level 2.

14. Units Outstanding

15. Ongoing Charges Figure

The Ongoing Charges Figure (OCF) is an annualised ratio of the recurring operational costs to the average net assets of each Sub-Fund. The OCF includes the cost of management, investment management and administration of the Sub-Funds plus other running costs, such as depositary, audit and regulatory fees. Transaction costs and interest expenses are excluded from the calculation. The OCF is calculated twice yearly.

The following tables sets out the Sub-Funds' OCF for the year/period ended 31 December 2017 and the year/period ended 31 December 2016.

2010.	31 December 2017	31 December 2016

18. Efficient Portfolio Management

The purpose of efficient portfolio management (EPM) is to achieve one or more of the following: the reduction of risk, the reduction of costs and the generation of additional capital or income for the Sub-Funds with an acceptably low level of risk. The Sub-Funds may use the following instruments for EPM: currency forwards and exchange traded futures.

19. Commitments and Contingencies

The Sub-Funds had no significant commitments or contingencies as at 31 December 2017 or 31 December 2016.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS (continued)

For the year ended 31 December 2017

20. Net Assets Attributable to Holders of Redeemable Participating Units

The following tables detail the net assets attributable to holders of redeemable participating units in the Sub-Funds as at the year/period end. The net asset value per unit is calculated by determining the proportion of the net asset value of each Sub-Fund attributable to each of its unit classes and dividing this amount by the number of units of that class in issue. The number of units in issue is presented rounded to the nearest whole number. The net asset value per unit is calculated dividing the net asset value by the unrounded number of units in issue and is presented rounded to two decimal places.

21. Portfolio Turnover Rate

Transaction costs are incurred when the Sub-Funds deal in securities and issue and redeem units. The portfolio turnover rate (PTR) reflects the volume of trading by a Sub-Fund other than investing in/disposing of securities due to subscriptions in/redemptions by the Sub-Fund. It is calculated using a prescribed formula: ((purchases of securities plus sales of securities) minus (subscriptions of units plus redemptions of units)) divided by average net asset value.

A PTR of one means that the average net asset value has been traded one time during the period under review. A PTR of nil or less means that the volume of trading is completely related to purchases and sales of securities due to subscriptions and redemptions.

The tables overleaf set out the Sub-Funds' PTR during the year/period ended 31 December 2017 and the year/period ended 31 December 2016.

Report on the accompanying

Our opinion

We have audited the financial statements 2017 of the Sub-Funds based in Amsterdam.

In our opinion the accompanying financial statements give a true and fair view of the financial position of the Sub-Funds as at 31 December 2017, and of their results and cash flows 2017 and for Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund the statements mentioned under 2-4 cover the period 10 January 2017 and 24 March 2017 (respectively) up to and including 31 December 2017 in accordance with International Financial Reporting Standards as adopted by the European Union (EU-IFRS) and with Part 9 of Book 2 of the Netherlands Civil Code and the requirements set with regard to the financial statements by or pursuant to the Dutch Financial Supervision Act).

The financial statements for all the Sub-Funds mentioned above comprise:

- 1 the statement of financial position 31 December 2017;
- 2 the statements of comprehensive income,
- 3 the statements of changes in net assets
- 4 the statements of cash flows; and
- 5 the notes comprising a summary of the significant accounting policies and other explanatory information.

For Northern Trust World Custom ESG Minimum Volatility Equity Index UCITS FGR Fund and Northern Trust Developed Real Estate ESG Index Fund the statements mentioned under 2-4 cover the period 10 January 2017 and 24 March 2017 (respectively) up to and including 31 December 2017.

INDEPENDENT AUDITOR'S REPORT (continued)

Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the 'Our responsibilities for the audit of the financial statemets' section of our report.

We are independent of the Sub-Funds in accordance with the Wet toezicht accountantsorganisaties (Wta, Audit firms supervision act), the 'Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten' (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore, we have complied with the 'Verordening gedrags- en beroepsregels accountants' (VGBA, Dutch Code of Ethics).

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Report on the other information included in the annual report

In addition to the financial statements and our auditor's report thereon, the annual report contains other information that consists of:

- manager's report;
- other information pursuant to Part 9 of Book 2 of the Netherlands Civil Code;
- management and other information;
- investment review;
- appendix 1; unaudited portfolio statements;
- appendix 2; unaudited remuneration disclosures.

Based on the following procedures performed, we conclude that the other information:

- is consistent with the financial statements and does not contain material misstatements;
- contains the information as required by Part 9 of Book 2 of the Dutch Civil Code.

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing these procedures, we comply with the requirements of Part 9 of Book 2 of the Dutch Civil Code and the Dutch Standard 720. The scope of the procedures performed is less than the scope of those performed in our audit of the financial statements.

The directors are responsible for the preparation of the other information, including the management board's report in accordance with Part 9 of Book 2 of the Dutch Civil Code, and other information pursuant to Part 9 of Book 2 of the Dutch Civil Code and the requirements set with regard to the financial statements by or pursuant to the Dutch Financial Supervision Act.

INDEPENDENT AUDITOR'S REPORT (continued)

Description of the responsibilities for the financial statements

The directors are responsible for the preparation and fair presentation of the in accordance with EU-IFRS and Part 9 of Book 2 of the Dutch Civil Code. Furthermore, the directors are responsible for such internal control as the directors determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to errors or fraud.

As part of the preparation of the financial statements, the directors are responsible for assessing the Sub Funds' ability to continue as a going concern. Based on the financial reporting frameworks mentioned, the directors should prepare the financial statements using the going concern basis of accounting unless the directors either intend to liquidate the Sub-Funds or to cease operations, or has no realistic alternative but to do so. The Directors should disclose events and circumstances that may cast significant doubt on the company's ability to continue as a going concern in the financial statements.

Our responsibilities for the audit of the financial statements

Our objective is to plan and perform the audit assignment in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not have detected all material errors and fraud during our audit.

Misstatements can arise from fraud or errors and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgement and have maintained professional scepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements. Our audit included e.g.:

- identifying and assessing the risks of material misstatement of the financial statements, whether due to errors or fraud, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from errors, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub Fund's internal control;
- evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made;

INDEPENDENT AUDITOR'S REPORT (continued)

Our responsibilities for the audit of the financial statements (continued)

- concluding on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company ceasing to continue as a going concern;
- evaluating the overall presentation, structure and content of the financial statements, including the disclosures; and
- evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.

Amstelveen, 25 April 2018 KPMG Accountants N.V. W.L.L. Paulissen RA
